among current and
former staff and students

INTO Manchester provides an exceptional study environment in which to prepare you for the challenges and rewards of a world-class university education. Located in the heart of Manchester and on the doorstep of the university quarter, you will join a diverse international student community who share your ambition to succeed in their studies and go on to secure the job of their dreams.

Based in one of the most popular student cities in the world, The University of Manchester offers a world-class learning experience rooted in a rich educational heritage. Ranked 41st in the world and 5th in the UK (Academic Ranking of World Universities), Manchester ranks top ten in 20 subject areas (The Times Good University Guide 2014). Manchester is also a member of the prestigious Russell Group of research-led universities. Today, research remains at the heart of the Manchester ethos, with nearly two-thirds of our research classed as world leading or internationally excellent in the most recent Research Assessment Exercise.

We provide everything you need to give you the best start as an international student. From the moment you consider studying in the UK to the day you progress to university, we will be there to support you every step of the way. This will ensure that you can focus on your studies and have the opportunity to enjoy your time in one of the UK's most popular student destinations.

Studying overseas is one of the most important decisions in your life and will prepare you for living in an increasingly connected world. Many of our graduates have already gone on to secure their dream job. By choosing to study at INTO Manchester they took the first step to achieving what we call 'world advantage' - we look forward to you joining them.

"The INTO Manchester International Foundation is an excellent way to prepare yourself for study here at The University of Manchester. Successful completion of the programme can lead to a wide range of undergraduate courses at the University, including all aspects of business and management, law, science, engineering, life sciences, pharmacy and psychology. I look forward to welcoming you here in the future."

Mike Gibbons, Director of Student Recruitment and International Development

A modern and dynamic learning environment

INTO Study Centre

INTO Manchester is a dynamic study centre dedicated to the success of international students. We understand your needs, and offer modern classrooms and experienced teachers to give you an exceptional learning environment and the best experience.

Preparing for your next step

The International Foundation at INTO Manchester offers you the opportunity to prepare for entry into a wide range of undergraduate degrees at The University of Manchester. If you do not meet the minimum English language requirements for entry to the International Foundation, we also offer a year-round English Preparation for Foundation Students course.

Modern learning facilities

The Centre is located in Bridgewater House, an impressive Edwardian building within walking distance of the city centre and university campus.

The modern facilities include:

- 39 classrooms equipped with the latest learning technology including interactive whiteboards
- well-stocked Learning Resource Centre
- computer suites
- free internet access, email access and Wi-Fi
- Welcome Desk and the support of our friendly Student Services team
- comfortable break-out areas for private study and socialising.

Learning Resource Centre

The Learning Resource Centre offers a range of support materials for students accessible via an online catalogue - including books, DVDs, journals, CDs and newspapers - as well as printing and scanning facilities. Our experienced and professional staff will provide advice and training to help you make the most of the resources available.

E-learning facilities

All students have access to the Centre's virtual learning environment to download lecture notes and other useful course content, as well as taking part in online discussions with teachers and classmates.

Access to university facilities

As a student on the International Foundation programme, you will have access to The University of Manchester Library and excellent sports facilities. As part of your application to The University of Manchester, you will also be invited to undertake visits to the University for activities such as departmental tours and open days, where you will be able to meet current students.

"We hope you will enjoy studying here in the heart of the lively city of Manchester where you have easy access to the city centre and to the University quarter. We have a great team of experienced staff here to help and support you throughout your time with us on both academic matters and with day-to-day living, so that you can concentrate on your studies and make the most of your time with us."

Dawn Abbott, Centre Director

Celebrating student success

As a student on The University of Manchester International Foundation programme, you will benefit from a range of events and activities, organised throughout the year, to support your application and help you to decide which degree programme at the University is best suited to your aspiration. We provide dedicated support to you as a student on The University of Manchester International Foundation programme in a number of ways.

Student Placement Co-ordinator

Our programme has a dedicated Student Placement Co-ordinator, who will meet with you when you first arrive at INTO Manchester and see you regularly during your studies. The Student Placement Co-ordinator will provide practical support and guidance on the range of degree programmes available at the University, advise on which course is most suitable for you and assist you with your application to the University.

The Student Placement Co-ordinator will also work closely with the staff in the relevant Faculty to ensure that you feel part of the University from your first day at INTO Manchester.

Open days

Attending an open day is one of the best ways to get a feel for what it is like to study at The University of Manchester.

These take place in October and June each year and as a student on the International Foundation programme you will be automatically invited to attend.

At an open day you will have the opportunity to learn more about subject areas of interest, meet current undergraduate students and staff, tour the campus and facilities, and gather information on all aspects of university life.

INTO alumni presentations

Each year international students who studied their Foundation programme at INTO Manchester and then enrolled on an undergraduate degree at the University return to the Centre to share their experiences with current students. These sessions provide you with the perfect opportunity to put questions to fellow students, who have had similar experiences, and shared your aspirations to study at the University.

Inspirational lectures

As a world-class institution, The University of Manchester attracts internationally renowned academics working at the cutting-edge of research. To provide you with an opportunity to learn more about recent advancements in your subject area, as well as first-hand experience of what studying at Manchester is like, academics from the University deliver lectures especially for students studying the International Foundation at INTO Manchester.

“We have a proud tradition of excellence at The University of Manchester that spans over 180 years. We offer a wide choice of courses attracting students from all over the world. We are delighted to receive applications from students who do well on the International Foundation at INTO Manchester as we are confident that they are well-equipped for academic success.”

Kate Sapin, Link Tutor, Faculty of Humanities

65%

of research is 'world leading' or 'internationally excellent' (latest Research Assessment Exercise)

About the University

Based in one of the most popular student cities in the world, The University of Manchester offers a world-class learning experience rooted in a rich educational heritage. With its aim of becoming a top 25 global provider of education and research by 2020, and a £1 billion investment programme facilitating the building of new flagship buildings, high-tech labs and lecture theatres, this is a really exciting time to be a student at Manchester.

History of excellence

The University of Manchester has a distinguished history in research, innovation and enterprise stretching back over 180 years, with no fewer than 25 Nobel Laureates among former and current staff and students.

Manchester's story is one of world firsts and brilliant discoveries. The birth of the modern computer, the splitting of the atom, the founding principles of present-day economics - all these and many more world-changing innovations have their roots at The University of Manchester.

World-class research

Research is at the heart of the Manchester ethos, with research undertaken in a broader range of academic areas than any other university in the UK. A strong emphasis is placed on social responsibility, gearing research priorities towards finding solutions to global challenges such as cancer, world poverty, carbon reduction, nuclear energy and social cohesion. The latest Research Assessment Exercise, conducted by the UK Government in 2008, judged that an impressive 65% of the University's research is either 'world leading' or 'internationally excellent'.

Research-informed courses

Manchester's research underpins its undergraduate degree courses and you will benefit from being taught by staff who are at the forefront of their own subject area. Many of our undergraduate programmes include elements allowing you to contribute to research within your School of study. This offers valuable academic experience and helps to develop essential transferable skills that can be carried forward into the workplace or on to postgraduate level study.

www.manchester.ac.uk/research

Teaching quality

The University offers a wide portfolio of courses. You can expect a broad range of teaching methods, with traditional lectures and seminars supported by the latest technology. You will also be able to gain practical experience in modern laboratories and workshops, or review articles online through the e-learning facility. Manchester is an international leader in enquiry-based teaching, which encourages you to pursue your own lines of interest in your studies - an effective way of developing skills of critical reasoning and evaluation.

Assessment methods vary from course to course but may include exams, project work and continuous assessment via essays, reports, presentations and practical work.

▼ The University of Manchester Careers Service

Access to more than 6,000
UK and global employers

Careers and employability

At The University of Manchester, there is an understanding that enhancing employability is a crucial element for students in deciding where to study. After graduation, you will face a competitive and rapidly globalising job market, where academic success alone is not enough to secure your chosen career.

Developing skills

To gain that all-important edge over other graduates, it is essential to develop your skills and demonstrate potential to employers. Whether it is teamwork or leadership, commercial awareness or simply learning more about a job and preparing a stand-out CV, there are a number of opportunities provided for students to improve their skill set, both at the University and in the city itself.

Global network of alumni

With its illustrious academic past and its impressive network of alumni spread around the world, Manchester has graduates in top positions in business, politics, industry and the arts, including the former Chief Executive of Tesco, international architect Norman Foster, the Presidents of Iceland and Trinidad and Tobago, and Singapore's Deputy Prime Minister and Minister of Defence.

Future prospects

The University is one of the most targeted universities by the UK's 'Top 100 Graduate Employers' and in the 2013 QS World Rankings, the University scored a maximum 100/100 for 'Employer Reputation'. It maintains strong links with a wide range of global companies, and degree course syllabuses are informed by an understanding of the types of skills that employers value. Many of the degree courses offered are professionally recognised and have been accredited by the relevant professional bodies, providing students with an internationally recognised qualification.

Work experience

Many courses offer work experience, or the opportunity to spend a period of time with a company. The University's Careers Service can also help you to find a placement.

Award-winning Careers Service

From the day you arrive, you will be able to access support with your career planning from Manchester's award-winning Careers Service, including:

- major recruitment fairs and careers talks, workshops and employer presentations covering diverse careers and skills
- over 75,000 vacancies with 13,000 companies advertised annually
- an online job vacancy service exclusively for students and graduates
- appointments with professional careers consultants and industry experts for one-to-one guidance
- the delivery of accredited course units in many academic schools enabling you to develop skills such as teamwork and commercial awareness, with many lectures being delivered by employers
- the 'Manchester Leadership Programme' (MLP), which combines a Leadership in Action unit, addressing the key challenges of the 21st century, with approved voluntary work - this programme is well respected by employers.

Support for international students

A number of employment services have been developed especially for international students. These include live webcasts, international e-mentoring programmes, Manchester-based recruitment fairs (e.g. one of only two universities selected to host the 2012 and 2014 Pakistan Graduate Recruitment fairs co-ordinated by the British Council) and networking events exclusively for international students. These include the Chinese Graduate Fair @ Manchester, a programme of more than 30 annual workshops for international students, as well as online job market information covering over 40 countries.

▼ The University of Manchester Main Library

£1bn

investment programme to
create a world-class campus

World-class facilities

The University of Manchester's facilities are the match of its world-class teaching. With an ongoing investment in enhancing its infrastructure, the University continues to demonstrate its commitment to be at the forefront of higher education worldwide.

Ongoing investment

The University of Manchester has completed the biggest investment in buildings and facilities ever seen at a British university, with £750 million invested since 2004. The University's iconic Victorian buildings are joined by contemporary lecture theatres, laboratories, studios and computer labs.

The University is investing a further £1 billion in its campus. In the next few years there will be a new engineering campus, new centres for law and business, a major refurbishment of the library, an extension to the Students' Union building, a new medical school and major improvements to the area around campus.

Library facilities

The University of Manchester Library, one of the largest academic libraries in the country, holds more than four million separate items along with the largest collection of electronic resources of any UK institution. In addition to the main library, many schools maintain their specialist libraries.

One of the newest and most exciting developments is the Alan Gilbert Learning Commons, a flexible and stimulating space exclusively for students. Open 24/7, cutting-edge IT facilities, a variety of learning spaces and a host of student-centred services are all contained within its ultra modern design.

www.manchester.ac.uk/library

Computing facilities

There are first-rate computing facilities on campus with over 4,000 PCs, wireless internet zones throughout the Oxford Road area, and internet connections in all halls of residence. If you need to become more IT proficient, you will find a wide range of introductory courses on offer to help.

Home to a student population of approximately 100,000

About Manchester

With an industrial past and a vibrant present, Manchester is one of the most dynamic and lively cities in Europe. Home to world-class sport, top shopping and hundreds of restaurants, Manchester has cultural events and attractions to suit every lifestyle. The city itself has a diverse and multicultural population and is home to one of the largest student populations in the UK.

History and architecture

Manchester's position as the world's first industrial city is evident in its famous Victorian buildings and monuments, such as the Town Hall in Albert Square. In recent years the city centre has been reshaped. New public spaces have been created, and imaginative buildings and developments have appeared, transforming the city's skyline.

Eating and drinking

With over 300 restaurants there is an eclectic range of high-quality, modern British and international cuisine available. Manchester's Chinatown is the second largest in Britain and has a number of Asian restaurants and supermarkets. There are also many restaurants and shops in Rusholme's 'Curry Mile' offering South Asian and Middle Eastern dining options and produce.

Cultural Manchester

Manchester offers a rich choice of cultural activities. There are more than 50 museums and galleries in Greater Manchester, most of which provide free admission. Two of the best - the Whitworth Art Gallery and the Manchester Museum - belong to The University of Manchester and are situated on campus.

Manchester has something to offer everyone. Whether it's international cinemas, theatres, opera, ballet, comedy or music, it's all here.

Sport

Manchester is home to two of the biggest names in sport: Manchester United and Manchester City football clubs. Manchester United's ground, Old Trafford, is the largest club ground in Britain, while 2014 Premiership winners Manchester City are based on the other side of the city at their Etihad Stadium, originally built for the 2002 Commonwealth Games.

The Games left a legacy of world-class sporting facilities, including the Manchester Aquatics Centre and the Manchester Velodrome. National and international cricket can be enjoyed at Lancashire's Old Trafford Ground, and rugby union and rugby league teams play at nearby Sale, Salford, Wigan and Warrington.

Shopping

Manchester is the shopping capital of the North and has a range of top department stores, popular high street chains and designer boutiques. The Northern Quarter offers a unique experience with its mix of fashionable bars, cafés and vintage boutiques, where you will be able to find products from all over the world. The Trafford Centre, a large out-of-town shopping centre with more than 250 stores, confirms Manchester's reputation as a shopper's paradise.

Getting around the city

Although Manchester is one of the largest cities in the UK, it is easy to navigate. It has a compact city centre that can be accessed either on foot or by using the city's excellent public transport system. This includes relatively cheap buses, a modern Metrolink tram system and an extensive train network with connections throughout the UK.

...and beyond the city

Manchester is a great base from which to explore the rest of the UK. There are four national parks within an hour's drive or a short train journey, including the naturally stunning Peak District, Lake District, and Snowdonia in North Wales. London is just two hours by train and the historic cities of York and Chester, and the unique Blackpool seaside resort are also within easy reach.

For those who wish to explore further afield, Manchester International Airport has daily flights serving 200 destinations and a frequent service to London Heathrow, as well as to most major European cities.

Student life

With a campus close to the centre of one of the UK's top student cities, The University of Manchester offers everything you need to get the most from your studies and leisure time. The campus, dominated by a mix of grand historic and contemporary, state-of-the-art buildings, has a number of quiet corners, landscaped gardens, cafés and common rooms where you can relax and socialise. The University also provides places of worship for most faiths.

A welcoming environment

The University of Manchester has a truly global appeal, with students from more than 150 countries contributing to what is truly a dynamic and cosmopolitan environment. The city of Manchester itself has a long tradition of fostering global thinking and is home to a multitude of cultures and religions. You will find all the amenities expected of a modern European city, along with many shops to buy food from your home country. Getting around the campus is simple, as everything is either within walking distance, or easily accessible via one of the busiest bus routes in Europe.

The University of Manchester Students' Union

The Students' Union is the UK's largest and is run by and for all students at the University, including an elected International Students' Officer, representing the views of overseas students on campus. Hundreds of student clubs, societies and campaigns are funded by the Union providing you with a great opportunity to meet others with the same interests. The Union has four live music venues, attracting the latest in big name and up-and-coming bands, and is home to many popular student cafés alongside a host of advice and support services.

www.manchesterstudentsunion.com

International Society

The International Society is an independent, not-for-profit organisation unique to Manchester. Based on Oxford Road, at the heart of The University of Manchester campus, and with nearly 7,000 members from over 120 countries, it provides a social and supportive environment for all international students. The Society arranges weekend trips around the UK, offers over 65 different classes each week and organises over 100 different social events throughout the year, helping you to make the most of your time in the UK.

www.internationalsociety.org.uk

Sport

Manchester, consistently ranked within the top 10 in the British Universities and Colleges Sport League, has a world-class reputation for sport. With 46 Athletic Union sports clubs to join, including football, basketball, cricket and the martial arts, as well as more unusual activities such as korfbal, there are plenty of opportunities for you to get involved. The University has a number of conveniently located sport centres providing both indoor and outdoor pitches for a range of individual and team sports, as well as hosting more than 80 fitness classes a week. There are also outstanding swimming facilities close to the campus at the Manchester Aquatics Centre, built for the 2002 Commonwealth Games.

"I enjoy the teacher's different methods of teaching as they help us to learn more."

Meera Sajwani, United Arab Emirates

A day in the life

International Foundation student Meera Sajwani from the United Arab Emirates talks about a typical day at INTO Manchester.

Morning

8.30am

I get out of my bed, open my curtains to check the weather and pick my outfit. I take a quick shower and make myself a cup of tea as I greet my roommates. It only takes me 10 minutes to walk from my accommodation to the INTO Manchester Centre.

9.15am

My course is International Foundation in Engineering and Science, and my first class this morning is maths. The teacher revises what we studied last lesson and explains a new topic. When he's explained the new topic to us, we get some sheets with questions to practise on. Between classes I take a break and sit on the beanbags in the breakout area with my friends from the other group and talk about our plans for the weekend.

10.30am

My physics class starts and it's a two-hour lecture. In the first hour, our physics teacher explains a new idea, using funny examples and demonstrations to make the class even more stimulating and enjoyable. I enjoy the teacher's different methods of teaching us as they help us to learn more.

We have a 10-minute break, which is a good opportunity to ask our teacher about anything we didn't understand or to refresh outside the classroom. I sometimes head to the breakout area to watch my classmates play a game of foosball. The second half of the physics lecture starts and the teacher usually gives us some questions to solve so he can make sure we've understood what we've learnt.

Afternoon

12.30pm

My break starts at 12.30pm, and that's when I have my lunch with my best friends. It usually takes a while to decide where to eat because of the variety of restaurants nearby!

1.30pm

My last class for today starts at 1.30pm, and it's an hour-long lecture of chemistry where the teacher explains our next assignment and gives us examples of the best way to get top grades.

2.30pm

After class, I pass by the Learning Resource Centre. Here we have free internet and email access, so I check my INTO emails to see if there are any new updates in my subjects. There are also lots of materials to help with our studies and lots of different areas to study in. I do some revision of what I've learnt this week.

Evening

8.30pm

Since it's the weekend, I go out with my friend to Teacup for dinner and some cake.

My friends and I usually spend some time in the common room in our accommodation, which is where we all gather at night to play a game of billiards, table football, or table tennis.

I also like to go out for a stroll with my flatmate and talk about different things. Our accommodation is right in the city centre, meaning there is a lot to see and do nearby, and we are never far from the shops and restaurants.

11.30pm

By this time I'm home and really tired so I go to sleep.

www.intohigher.com/manchester/app

Student support

Choosing to study at INTO Manchester means embarking on a life-changing journey and our extensive support network is there to guide students every step of the way. Whether it's support with applications, essential information to prepare for arrival, or help settling in to student life.

Applications

Your first point of contact is likely to be with one of INTO's education counsellors in your home country. Always happy to help, they recognise the importance of your choices and have in-depth knowledge of the INTO Centre, the University and the courses on offer. They will gladly answer any questions and assist you with the application process.

For further information see page 72.

Students who are under the age of 18

Before the Centre accepts a student younger than 18 years of age, parents must sign a consent form agreeing the outlines of the INTO Under 18 Policy. Relevant forms will be sent to parents and the student with confirmation documents. No student will be accepted at the Centre without completing and returning these forms before the start of the course.

During their first week students under the age of 18 are given a point of contact and the Centre's code of conduct. At this point the student will be advised on the support they will receive due to their age and explained the rules and safeguards that are put in place for their well-being. During lesson time student attendance is monitored and any absences will be followed up. Outside of class, students are unsupervised but advised to follow the Centre's code of conduct. All under 18s are required to live in INTO Manchester accommodation offerings.

A copy of INTO's Under 18 Policy is available on request.

Coming to the UK

Once an offer has been accepted, a pre-departure guide containing practical information will be sent out to help prepare you for travelling to the UK, arrival in Manchester and course enrolment.

The guide is also available as a mobile app.

Download the pre-departure guide: www.intohigher.com/manchester/pgd

Airport pickup service

An airport pickup service from Manchester International Airport is available for an additional charge.

Pastoral care

INTO is dedicated to ensuring total safety and support for students. On arrival, the Student Services team will provide guidance on settling in to student life in Manchester and will remain the first point of contact throughout for any non-academic issues.

Support services offered include:

- a comprehensive orientation programme during your first week
- 24-hour emergency telephone number
- Language Advisers who can help students with a low level of English to communicate
- Residential Tutors within student residences
- visa and immigration support, including workshops and individual appointments
- support for students with disabilities*
- student clubs and social programmes.**

Monitored attendance

Good attendance is key to academic success. INTO Manchester expects students to attend all academic sessions. Student attendance is monitored carefully and where attendance is not satisfactory, the Centre has an absence procedure.

The Centre has an additional obligation to report to UK Visas and Immigration any changes that may affect the terms of an international student's visa, including absence from the programme.

* Students with disabilities must inform the Centre upon applying for their course of study so that any necessary adjustments can be made.

** The optional social programme's activities and excursions normally cost £10-£50 each.

Accommodation

At INTO Manchester, you can choose to live in a hall of residence, where you will join a vibrant community that lives and learns together, or experience British life first-hand in our carefully selected homestay accommodation.

Halls of residence

Students choosing to live in residential accommodation will benefit from the close social interaction with other students, learning about each other and their cultures. For many students this is an unforgettable part of their student experience.

Parkway Gate

This purpose-built student residence is situated in the heart of Manchester and only a 10-minute walk away from the Study Centre.

- Single bedrooms with en suite shower rooms.
- Up to six-bedroom flats.
- Self catered with access to a shared, fully-fitted kitchen.
- Free internet access with Wi-Fi available throughout.
- Flatscreen TV in the communal area of each flat.
- Common and games room with widescreen TV and pool table.
- Secure bike storage.
- Access to laundry facilities.
- Weekly clean of communal areas.

A truly supportive living environment

Within the residences, the Centre has appointed residential tutors who live in the accommodation. The tutors will help you to settle in on arrival, organise social activities and provide support during out-of-office hours. The tutors are all previous students of INTO Manchester and so have first-hand experience of studying overseas.

If an under 18 opts for the INTO Manchester halls of residence they will also enjoy the support of our residential tutors who will be available each evening at curfew when the students sign in to confirm that they are on the premises.

Homestay accommodation

INTO Manchester has a network of carefully selected hosts who welcome international students into their homes. This is a unique opportunity to live and experience British life and culture first-hand, improving your English in a comfortable environment.

Facilities include:

- a single study bedroom
- shared breakfast and evening meals
- access to household facilities including laundry, and communal bathroom.

If an under 18 opts for INTO Manchester's homestay they will enjoy the support of a host who has very specific responsibilities for the care of our under 18s. They will talk students through the rules of homestay in relation to their age and will ensure that the student is home by curfew each evening. Homestay hosts will remain in regular contact with the Centre regarding the students and their well-being.

Standard homestay

You are expected to keep your room clean and use the laundry facilities. Internet access is not always available (although it is available at the Centre) and specialist diets such as vegetarian and halal are not always catered for.

Superior homestay

This kind of homestay has all the facilities of standard homestay except it has guaranteed internet access within the house and most specialist diets are catered for. Students have two loads of laundry washed and ironed and their bedroom cleaned each week. However, you are expected to keep your room tidy.

Halls of residence have free internet access with Wi-Fi throughout

Residential tutors provide support during out-of-office hours

£1bn

investment in world-class facilities

About our Faculties

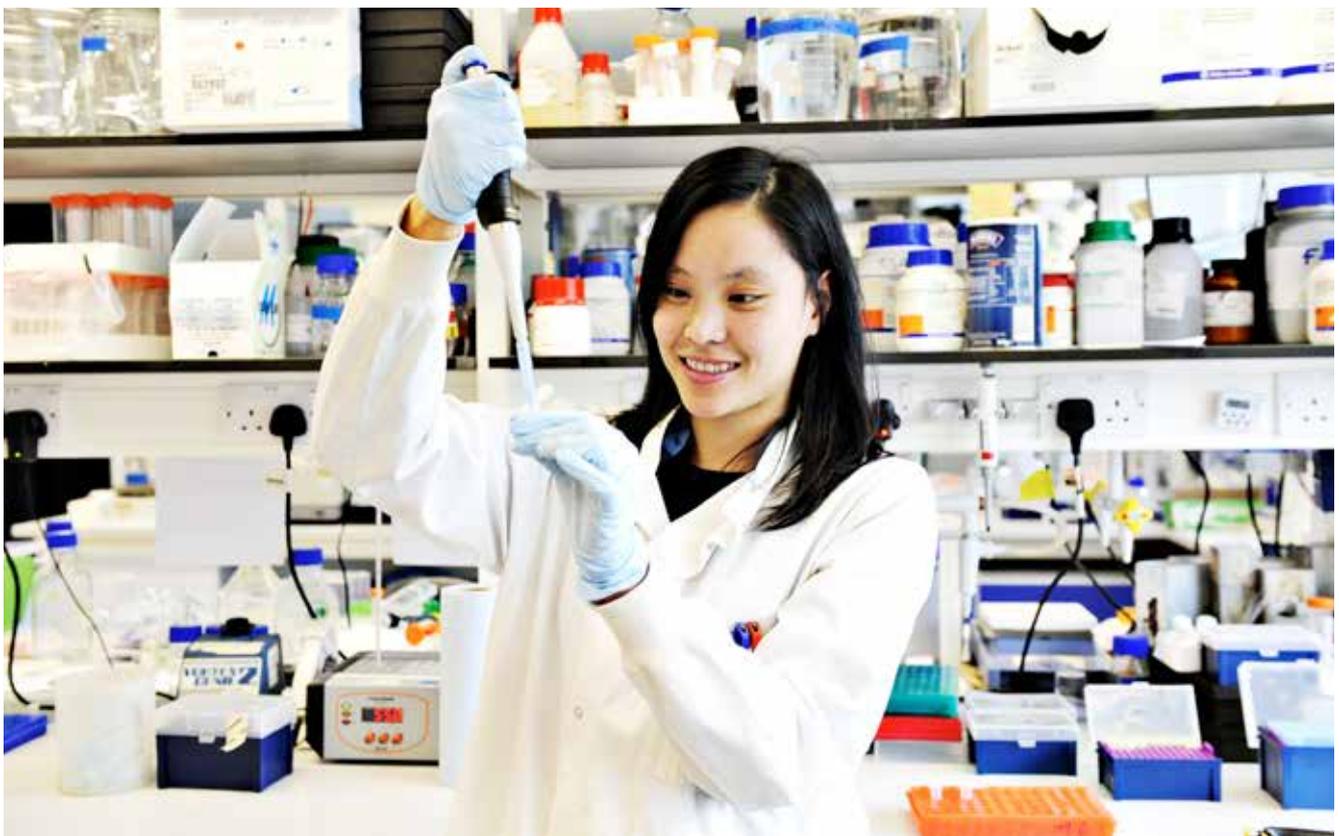

Four Faculties,
each with powerful
reputations for teaching
and research success

Academic and research
staff at the cutting edge
of their subject areas

▼ Core Technology Facility, Faculty of Life Sciences

Faculty of Life Sciences

Life Sciences is an exciting and fast-moving area, so it is important that you undertake your first degree in an active, interdisciplinary research environment.

Research power

Here at Manchester, we are addressing research challenges of global significance, including:

- advancing the understanding of wound healing and tissue regeneration
- exploring the cellular processes that lead to the development of cancer
- developing environmentally sustainable biofuels to replace fossil fuels.

We are ranked second in the UK for 'research power' and 95% of our research is classified as being of 'international significance' in the latest Research Assessment Exercise.

Our international reputation in research will directly benefit you as an undergraduate student.

Breadth and flexibility of courses

We offer around 20 courses covering specialisms in different aspects of Life Sciences, as well as courses leading towards a specific career in Optometry. We currently offer more than 100 different course units in Life Sciences, including lecture, practical and field units. The breadth of our research affords us expertise in a range of areas, from molecules to cells, plants to animals, and biomedical to population studies. If your interests also include subjects outside the life sciences, you can choose optional units in other subjects, such as languages or law.

The first year of all our degree courses share a common core of course units introducing fundamental concepts. This allows you to transfer between most degree courses at the end of your first year and, in some cases, later.

Most of our three-year degree courses can be taken as four-year courses with industrial/professional experience or with a modern language.

Teaching and facilities

Teaching in Life Sciences at Manchester was rated as 'excellent' in a recent independent review. Teaching is conducted via lectures, informal tutorials, seminars, laboratory sessions and field courses, giving you plenty of opportunity to interact with staff and other students in small groups. Alongside these traditional approaches, we also employ a number of more innovative teaching methods, including student-led 'Peer Assisted Study Sessions', which were pioneered in the Faculty.

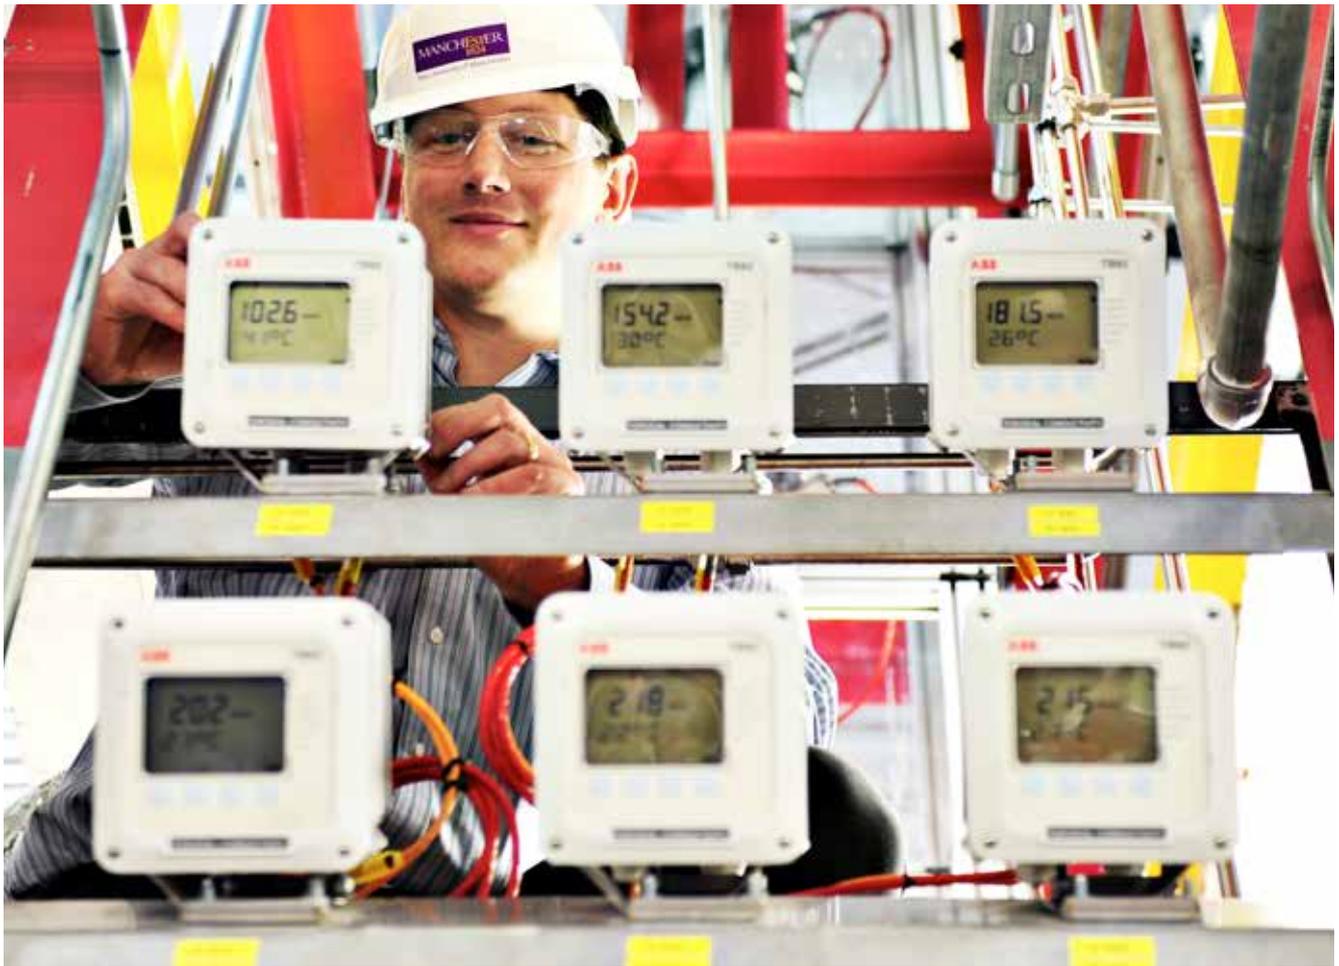

Our curriculum is informed by our research, so you will learn cutting-edge science, taught by researchers working at the forefront of new scientific discoveries. You also have the opportunity to make your own contribution to our research, if you choose to carry out a project in the laboratories of these leading scientists in your final year. If you decide to study with us, you will benefit from our £150 million investment into state-of-the-art facilities, encompassing a staggering 28,000m² of research space. Outside of the lecture theatres and labs there are opportunities to do field courses in Europe, Africa and Central America, to undertake a placement in an institution almost anywhere in the world, and even to plan the set-up of your own biotechnology company.

Career opportunities

Employment prospects for graduates of life sciences courses are excellent. Approximately half of our students choose to pursue a career closely related to their degree. Many go on to postgraduate or vocational study, others go on to work in the pharmaceutical and agrochemical industries, in medical technology and in research institutes and government agencies. Our remaining graduates are highly sought after by large multinational organisations and popular roles include those in management, accountancy, marketing, law and publishing.

Throughout the course there is a focus on developing skills that will transfer into a wide range of careers. These skills include effective communication, innovation, judgement and decision-making, organisation problem-solving and teamwork.

www.ls.manchester.ac.uk

“Students following the INTO Manchester pathway should be well prepared for the rigour and demands of our courses. Arrangements are made for INTO students to visit our Schools to see our extensive facilities and meet staff and/or students.”

Ian Bradley, Head of Academic Services
Faculty of Engineering and Physical Sciences

Faculty of Engineering and Physical Sciences

Manchester's Faculty of Engineering and Physical Sciences has a long and distinguished history in engineering and science education. Many major scientific advances of the 20th century have taken place here, including the first artificial splitting of the atom by Ernest Rutherford and the development of the world's first stored program computer.

Extensive industry links

Today, the Faculty has extensive industry links enhancing both undergraduate teaching and ground-breaking research. Key industrial partners, such as Shell, Rolls-Royce, BAE Systems, IBM, BP and Syngenta, as well as major pharmaceutical companies including AstraZeneca and GlaxoSmithKline, are central to some of the Faculty's most prolific research and to its continued innovation and success.

Career opportunities

Graduates of the Faculty are highly sought after by a wide range of employers, who recognise and appreciate the high level of achievement that is demanded by all of our academic schools. Many students will go on to follow a career related to their course of study. Others enter the commercial, financial, actuarial and business sectors, pursuing careers in management, accountancy, banking, insurance and marketing where analytical, numerical and technical skills are highly valued.

Recent achievements

- 2010 Nobel Prize to Professors Andre Geim and Kostya Novoselov for their discovery of graphene (a new material with astonishing properties).
- The University of Manchester will be home to the new £61 million National Graphene Institute.
- The presentation, by the Queen, of one of the prestigious Diamond Jubilee Queen's Anniversary Prizes for Further and Higher Education to the Dalton Nuclear Institute (comprising around 100 academic staff and more than 300 research staff and students) in recognition of the quality of work undertaken in the field of nuclear science.

Facilities

The Faculty provides outstanding resources for information, computation and experimentation, and a number of courses will lead to professional accreditation by relevant UK institutions. Modern new facilities include the:

- £40 million Alan Turing Building, which houses the School of Mathematics, and part of Physics and Astronomy
- Photon Science Institute
- £30 million facility for Chemical Engineering and Analytical Science, which includes a pilot plant.

What can I study?

The Faculty brings together nine highly-rated Schools that offer world-leading programmes across a wide range of disciplines, including:

- Chemical Engineering and Analytical Science
- Chemistry
- Computer Science
- Earth, Atmospheric and Environmental Sciences
- Electrical and Electronic Engineering
- Materials (including Textiles)
- Mathematics
- Mechanical, Aerospace and Civil Engineering
- Physics and Astronomy.

Each School has its own powerful reputation for teaching and research success, combined with a collaborative approach to broader areas of expertise. Courses are designed to provide flexibility of choice and are continually revised to reflect new developments in each subject area, allowing students to work at the cutting-edge of science.

www.eps.manchester.ac.uk

▼ The School of Law, Faculty of Humanities

“The INTO Foundation programme contains the thorough academic preparation necessary for students to flourish on social science undergraduate degree programmes. The engagement activities embedded in the programme allow students to become familiar with the University prior to enrolment and include expert advice regarding course choice.”

Dr Tom McCunnie, Admissions Tutor
Faculty of Humanities

Faculty of Humanities

The Faculty of Humanities aspires to be one of the most successful of its kind in the UK. With a total income of approximately £200 million a year, and around 18,000 students and over 1,000 academic staff, it is equivalent to a medium-sized university in the UK.

Teaching and research

The outstanding teaching and research environment provided by the Faculty ensures there is a culture that stimulates intellectual enquiry and an interdisciplinary approach to the pursuit of excellence and the breaking of new ground. Capitalising on its research excellence, there is a strong commitment to deliver research-led teaching informed by the most recent developments in each discipline area, with many of the teaching staff having come from high profile academic and/or professional backgrounds.

Career opportunities

Hard-working, ambitious Manchester graduates have risen to high-ranking positions within their associated professions across the UK and globally. They have become accountants, actors, anthropologists, architects, bankers, barristers, journalists, lecturers, managers, musicians, software developers, solicitors, speech therapists, teachers, town planners, youth workers and more. Others have successfully progressed within diverse industries and fields, such as banking, accountancy, education, energy, engineering, finance, healthcare, HR, IT, local government, marketing, the media, politics, retail and social services.

School overview

- **The School of Arts, Languages and Cultures** is the largest grouping of arts, languages and humanities scholars in the UK. It is home to some 6,500 students and approximately 350 academic staff working at the forefront of 17 disciplines.
- **The School of Environment, Education and Development** combines the disciplines of Architecture, Geography, and Planning and Environmental Management with the Manchester Institute of Education and the Institute for Development Policy and Management in an interdisciplinary centre of excellence for research and teaching to engage with debates about the built social and educational context in which we live.
- **The School of Law**, established in 1872, is one of the oldest and most prestigious in the UK and is ranked third for 'research power'. The School is a centre of excellence for the study of law, criminology and bioethics. Through the Manchester Legal Advice Centre, degree students have a unique opportunity to be involved with real clients, who have real legal problems, under the supervision of local lawyers.

- **Manchester Business School (MBS)** Ranked number one in the UK for business research power (RAE 2008), MBS is part of a small, select group of just 1% of business schools worldwide which are accredited by all three major bodies (AACSB, AMBA and EQUIS). We ensure that our graduates are equipped with both theoretical and practical skills when they enter the increasingly competitive job market and have a great track record when it comes to their employability.
- **The School of Social Sciences** is one of the top three centres of excellence in the UK. You will engage with cutting-edge research and teaching that address key challenges facing contemporary society. The School has a track record of producing graduates who are highly rated by employers worldwide.

What can I study?

The Faculty of Humanities encompasses diverse academic areas such as:

- Arts
- Business and Management
- Development
- Education
- Languages
- Law
- Literature and Culture
- Social Sciences including economics, politics, philosophy and many others.

The Faculty is committed to developing new and innovative ways to transfer knowledge out of the University and apply this to 'real world' problems.

www.humanities.manchester.ac.uk

▼ Laboratory facilities, Manchester Pharmacy School

“During your time on the INTO programme there will be opportunities to visit the University’s campus and the School, and meet current students. We can give you an insight into what studying with us would entail and answer any questions you have about the MPharm programme and pharmacy as a career.”

Dr Mike Harte, Admissions Tutor
Manchester Pharmacy School

Faculty of Medical and Human Sciences: Pharmacy

Pharmacy is the profession legally responsible for the supply of medicines and a pharmacist is the member of the health team who knows most about all aspects of medicines. Dating back to 1883, Manchester has a distinguished history in the teaching of pharmacy and pharmaceutical sciences and was the first UK university to award degrees in the subject.

Pharmacy at Manchester

Manchester Pharmacy School is one of the UK's leading centres for pharmacy research with 95% of its work classed as 'internationally significant' in the UK Government's 2008 Research Assessment Exercise.

With a unique combination of scientific, professional and clinical excellence in teaching, Manchester remains an innovative leader in the teaching of pharmacy and performs research of international repute within six themes, including:

- the design of novel anti-cancer compounds
- improving the understanding and design of anti-infective and novel diagnostic agents
- prediction of pharmacokinetics in humans
- delivery and pharmacokinetics of biopharmaceuticals
- controlled and responsive drug delivery
- policy-relevant medicines research.

Teaching quality

Learn from the University's academics who are experts in their field. Manchester offers a unique combination of scientific, professional and clinical excellence in teaching. Students' learning is enhanced by their exposure to teacher-practitioners and clinical lecturers from community and hospital pharmacies. A wide variety of teaching, learning and assessment methods are employed at all levels to develop independent learning and other transferable skills.

The curriculum is heavily informed by research achievements, contributing to excellent programme completion rates and high achievements of students.

Facilities

The School is based in the Stopford Building, where £18 million has been invested by the University into new state-of-the-art teaching and research facilities, including:

- specialised aseptic laboratories and communication studios
- a new dispensing suite and project laboratories
- a modern 90-terminal PC cluster with a full complement of pharmacy-specific and office-based software packages
- the Pharmacy Computer Assisted Learning (PCAL) Consortium, providing access to all PCAL and Pharma-CAL-ogy software packages by any networked machines across campus.

What you study

The four-year MPharm programme provides a broad-based, scientifically and clinically strong education in pharmacy. It equips you with the skills needed to enter all areas of the profession and helps you to adapt to changes that may occur during your career.

The MPharm degree is full-time and organised on a modular basis. The core material, which is divided into four key areas (The Medicine; The Pharmacist; The Patient; The Public), extends throughout all four years of the course, with opportunity for specialisation in the final year.

By the end of the course you will be conversant with the professional aspects of pharmacy, able to communicate effectively and able to appreciate the professional and social role of the pharmacist.

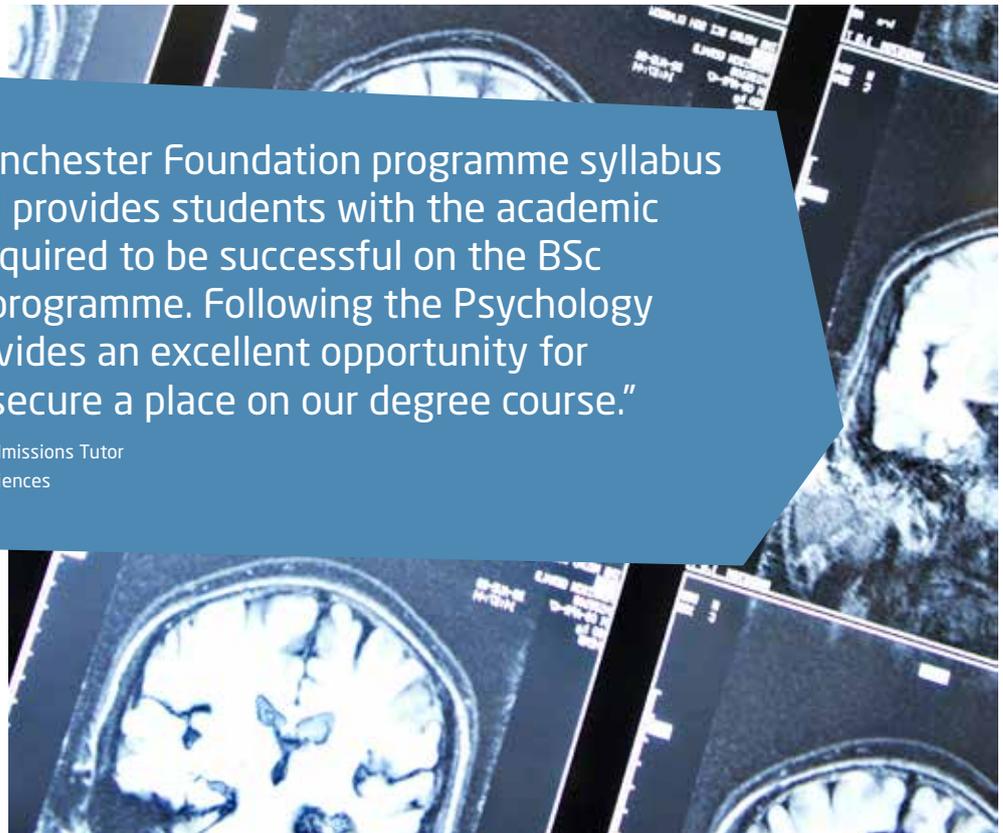

www.pharmacy.manchester.ac.uk

▼ Mock MRI scanner, School of Psychological Sciences

"The INTO Manchester Foundation programme syllabus is strong and provides students with the academic grounding required to be successful on the BSc Psychology programme. Following the Psychology pathway provides an excellent opportunity for students to secure a place on our degree course."

Dr Bo Yao, International Admissions Tutor
School of Psychological Sciences

Faculty of Medical and Human Sciences:

Psychology

People have been fascinated by the mind for centuries. What makes us behave in certain ways, as individuals, as groups and as societies? How can we explain and predict this behaviour? The study of psychology allows us to explore, question and interpret the human world – from the tiniest neuron in the brain, to the dynamics of huge crowds.

An impressive history

Psychology has a long and impressive history at Manchester. We appointed the UK's first Professor of Psychology in 1919 and we were at the forefront of the emergence of the discipline. If you study at Manchester, you will be joining one of the longest established psychology departments in the UK. Our pioneering teaching and research has been changing the way human behaviour is studied and understood for more than 100 years, and we are continually developing and enhancing our courses to ensure we remain at the forefront of teaching psychology.

Psychology at Manchester

Our School is ranked 36th in the world (QS World University Rankings 2013: Psychology). It is also one of the largest schools of psychology in the UK with more than 40 staff and 700 undergraduates. We also have one of the most innovative courses around. Our degree course gives you a comprehensive foundation in the essential topics of psychology, with the ability to tailor your studies to your own interests in year three. It focuses on the areas where our research is strongest, so you know you are learning about cutting-edge theories in this exciting and challenging subject.

Outside of the curriculum our students are encouraged to get involved with:

- The Psychology Society, which organises events such as debates and the Psychology Ball
- careers and networking events, which provide current students with the opportunity to meet with recent graduates to find out more about different career options open to them upon graduation
- the Consumer Psychology Competition that helps budding entrepreneurs develop their skills.

This degree is accredited as conferring eligibility for graduate membership of the British Psychological Society and the graduate basis for chartered membership.

Facilities

In addition to university-wide facilities, psychology students at Manchester have excellent subject-specific facilities and equipment, including:

- multiple high-resolution eye-trackers
- an observation suite, complete with two-way mirrors
- a mock MRI scanner
- a sleep lab
- state-of-the-art EEG facilities
- a gesture lab
- human vision labs with 3D vision equipment.

Career opportunities

Due to the multidisciplinary nature of psychology, graduates of this discipline are desirable to employers. A Higher Education Careers Services Unit survey in 2012 revealed that psychology graduates enjoy among the lowest levels of graduate unemployment, when compared with other disciplines.

This degree can provide you with a wide range of skills and experiences that are attractive to employers, including oral and written communication, project management, group-working, statistical data analysis, analytical thinking, and experimental research skills. These are valued across a range of employment sectors, and graduates from our degree programme currently hold positions in areas as diverse as PR, retail, marketing, media, accountancy, teaching and social work. In addition, a proportion of students pursue a career in psychology, either in an applied role such as educational or clinical psychology or in academic research. If you do wish to become a clinical or educational psychologist, further postgraduate training is required but it all starts with an undergraduate degree in psychology.

A range of academic
programmes to prepare
you for university success

About our courses

Flexible English language courses, with both year-round and summer options

Quality teaching standards from experienced professionals

International Foundation

The International Foundation prepares you for entry to Year 1 of a wide range of undergraduate degrees at The University of Manchester.

What is the International Foundation?

The International Foundation combines academic study, intensive English language preparation, study skills and cultural orientation – all that is necessary for successful study at university.

There are five pathways available:

- Engineering and Science
- Humanities and Social Sciences
- Life Sciences
- Pharmacy
- Psychology.

What is special about the International Foundation?

- A quality-assured and university accredited programme.*
- A conditional offer of a place on the first year of a relevant undergraduate degree at The University of Manchester.**
- Associate university status with access to library, sport and social facilities.
- University-style teaching supported by e-learning provision.
- High contact hours and small class sizes.
- Experienced and well-qualified teachers.
- Regular assessment to monitor your progress.
- Professional support and guidance with university applications.
- Multiple start dates.
- The highest levels of pastoral care and support.

* The International Foundation is validated by NCUK. NCUK (Northern Consortium United Kingdom) is owned by 11 leading UK universities including The University of Manchester. NCUK has offered widely recognised university pathway programmes to international students for more than 20 years. Further information on NCUK and the NCUK universities can be found at: www.ncuk.ac.uk

** Please note for courses offered through the Life Sciences pathway, all applicants will have to pass a selection interview before an offer is made. For courses offered through the Pharmacy pathway, all applicants will be asked to complete an online assessment, which will gauge communication and numeracy skills. Following successful completion of the online assessment an offer will then be made.

What if I do not meet the minimum English language requirements?

Lasting four terms the Extended Foundation incorporates a term of intensive English language tuition at the beginning of the course, allowing you to begin your course and improve your English to a level appropriate for academic study. You will be required to pass the initial English language component before progressing to the next stage of the programme. Examples of the combined programmes are set out in the diagram opposite.

If you need to study more than one term of English in order to reach the level necessary for academic study, you should apply for English Preparation for Foundation Studies. Please see page 66 for further information.

Outstanding choice of undergraduate degree subjects

The University of Manchester offers an unparalleled range of undergraduate study options, including degrees in areas such as Accounting and Finance, Biomedical Sciences, Business Studies, Computer Science, Economics, Electronic and Electrical Engineering, Genetics, Information Technology, Law, Life Sciences, Management, Materials Science, Mathematics, Mechanical Engineering, Neuroscience, Petroleum Engineering, Pharmacology, Pharmacy, Politics, Psychology, Sociology and Textile Technology.

Regular university contact

As well as access to library and sporting facilities, admissions staff from the schools to which you are applying will be in regular contact to ensure you feel part of the University. There will also be opportunities to undertake visits to the University for activities such as departmental tours and open days, where you will be able to meet current students. You will also meet the Link Tutors from the University on a regular basis.

Assessment

Progress is monitored by continuous assessment of coursework and by the use of class tests.

Assessment will be by:

- coursework (prepared assignments, unit tests, experiment reports, computer use)
- mid-course and end-of-course examinations
- formal assessment of levels and progress in English is through NCUK's English for Academic Purposes (EAP) programme.

Progression to The University of Manchester

The University of Manchester seeks to attract students with high academic ability and this is reflected in typical entry requirements of grades A and B across all modules taken. The University of Manchester admissions staff may also take into account previous academic attainment when considering candidates for progression.

Recommended study plan and progression route

“The INTO Manchester Foundation is crucial for your university success. It helps you to start speaking advanced English, get your head around the rules of academic writing, learn laboratory skills and be part of a multicultural society, making lots of friends from all the parts of the world!”

Iaroslav Kosov, Russia

Headstart Foundation

For students intending to start their International Foundation programme in September, the Headstart programme is a two-week course designed to provide you with an introduction to British culture and history prior to beginning your Foundation programme.

What is the Headstart Foundation?

The Headstart Foundation has been designed to provide international students studying overseas for the first time with the perfect introduction to studying in the UK. The course will:

- provide a basic understanding of British society and institutions
- provide an understanding of national and local history
- develop your confidence and speaking skills through participation in activities.

Course aims

By the end of the course you will be able to:

- work effectively with other students in a team
- understand and respond to spoken and written texts
- communicate effectively through both individually based written work and group based spoken work
- use English language skills effectively in a range of situations.

You will also develop knowledge and understanding of:

- local history and Manchester's place within the industrial revolution
- British Law, including a comparative investigation into differences with other legal systems
- the main political UK institutions, including Britain's parliamentary democracy and political parties
- British society and values, including traditional Britain and modern multicultural Britain
- British media and sport.

Key course facts

Start dates

August

Programme length

Headstart: 2 weeks

Foundation: 3 terms or approximately 9 months

Class hours

Headstart: approximately 5 contact hours per day, including 3 contact hours in the classroom and 2 hours outside the classroom.

Foundation: 25 hours per week.

Age requirement

17 years and above*

English language entry requirement

Applicants must have met the minimum academic and English language requirements for entry to the International Foundation programme.

IELTS 5.5 (with a minimum of 5.5 in writing) or equivalent

Life Sciences and Pharmacy pathways: IELTS 6.0 (with a minimum of 6.0 in all subskills) or equivalent

For further guidance please check with the INTO Admissions Office or your education counsellor.

* All students commencing courses on a published September start date must be 17 years old by 31 December of that calendar year. For all other start dates, students must be 17 years old by 31 December of the preceding calendar year.

For course dates and prices, see page 78

What will I study?

The timetables below provide an idea of the type of activities you will take part in during the course (exact details and times are subject to change and will be confirmed during registration).

Sample timetable: week 1

	Tuesday	Wednesday	Thursday	Friday
Morning	Registration activities	Library activities	Wellbeing lesson	Manchester and the History of the North West
Break				
Afternoon	Registration activities	Library activities	Cultural Difference/Awareness - Multicultural Britain	Related tour of the area

Sample timetable: week 2

	Monday	Tuesday	Wednesday	Thursday	Friday
Morning	British Society and Values	Visit to Police Museum	Introduction to British Political Institutions	Management simulation workshop	Business Ideas - Dragons' Den (preparing ideas)
Break					
Afternoon	Trip to Football Museum and tour of Royal Exchange	Introduction to British Law	Trip to the Town Hall	Ride the Wheel and Manchester treasure hunt	Delivering presentations

"I got used to the new environment and my English improved, which is really important for academic study."

Zhou Ziqi, China

International Foundation Engineering and Science

The Engineering and Science pathway prepares you for entry to Year 1 of a wide range of undergraduate degrees, including many fields of Engineering, Computer Science, Mathematics, Physics and Chemistry.

Pathways leading to degrees in the Faculty of Engineering and Physical Sciences

Core modules	Specialist modules*
English for Academic Purposes and Study Skills	3 out of 5:
ICT	Biology
Independent Research	Chemistry
	Further Mathematics
	Mathematics
	Physics.

Skills in research, laboratory work and quantitative methods will be developed across all the modules.

* Please note the choice of subjects will depend on the student's chosen degree programme. Some subject combinations may not be available.

See page 65 for descriptions of core and specialist modules for this pathway.

Leading to undergraduate degrees at The University of Manchester in areas such as:

Actuarial Science and Mathematics; Aerospace Engineering; Artificial Intelligence; Biomaterials; Chemical Engineering; Chemistry; Chemistry with Medicinal Chemistry; Civil and Structural Engineering; Civil Engineering; Computer Science; Computer Systems Engineering; Electrical and Electronic Engineering; Environmental Sciences; Geography; Geology/Earth Sciences; Information Technology; Materials Science and Engineering; Mathematics; Mathematics with Finance; Mechanical Engineering; Mechatronic Engineering; Petroleum Engineering; Physics with Astrophysics; Software Engineering; and Textile Technology.

Progression routes for study at The University of Manchester

As a successful Foundation student, you will have a wide choice of degree options.

For more details on destination degree programmes and the grades required for guaranteed progression, see pages 56-64.

Key course facts

Start dates

June and September

Programme length

3 terms or approximately 9 months
4 terms or approximately 12 months

Class hours

3 term: 25 hours per week
4 term: 25 hours per week
(20 hours per week during Term 1)

Age requirement

17 years and above**

Academic entry requirements

Completion of 12 years of schooling (or the local equivalent to meet the same standard) with very good grades.

English language entry requirement

3 term: IELTS 5.5 (with a minimum of 5.5 in writing) or equivalent

4 term: IELTS 5.0 (with a minimum of 5.0 in writing and no less than 4.5 in any subskill) or equivalent

The Centre accepts other Secure English Language Tests (SELT) including Pearson PTE.

If you have achieved the minimum IELTS score overall but do not have the required score in writing for direct entry you will be considered on a case-by-case basis.

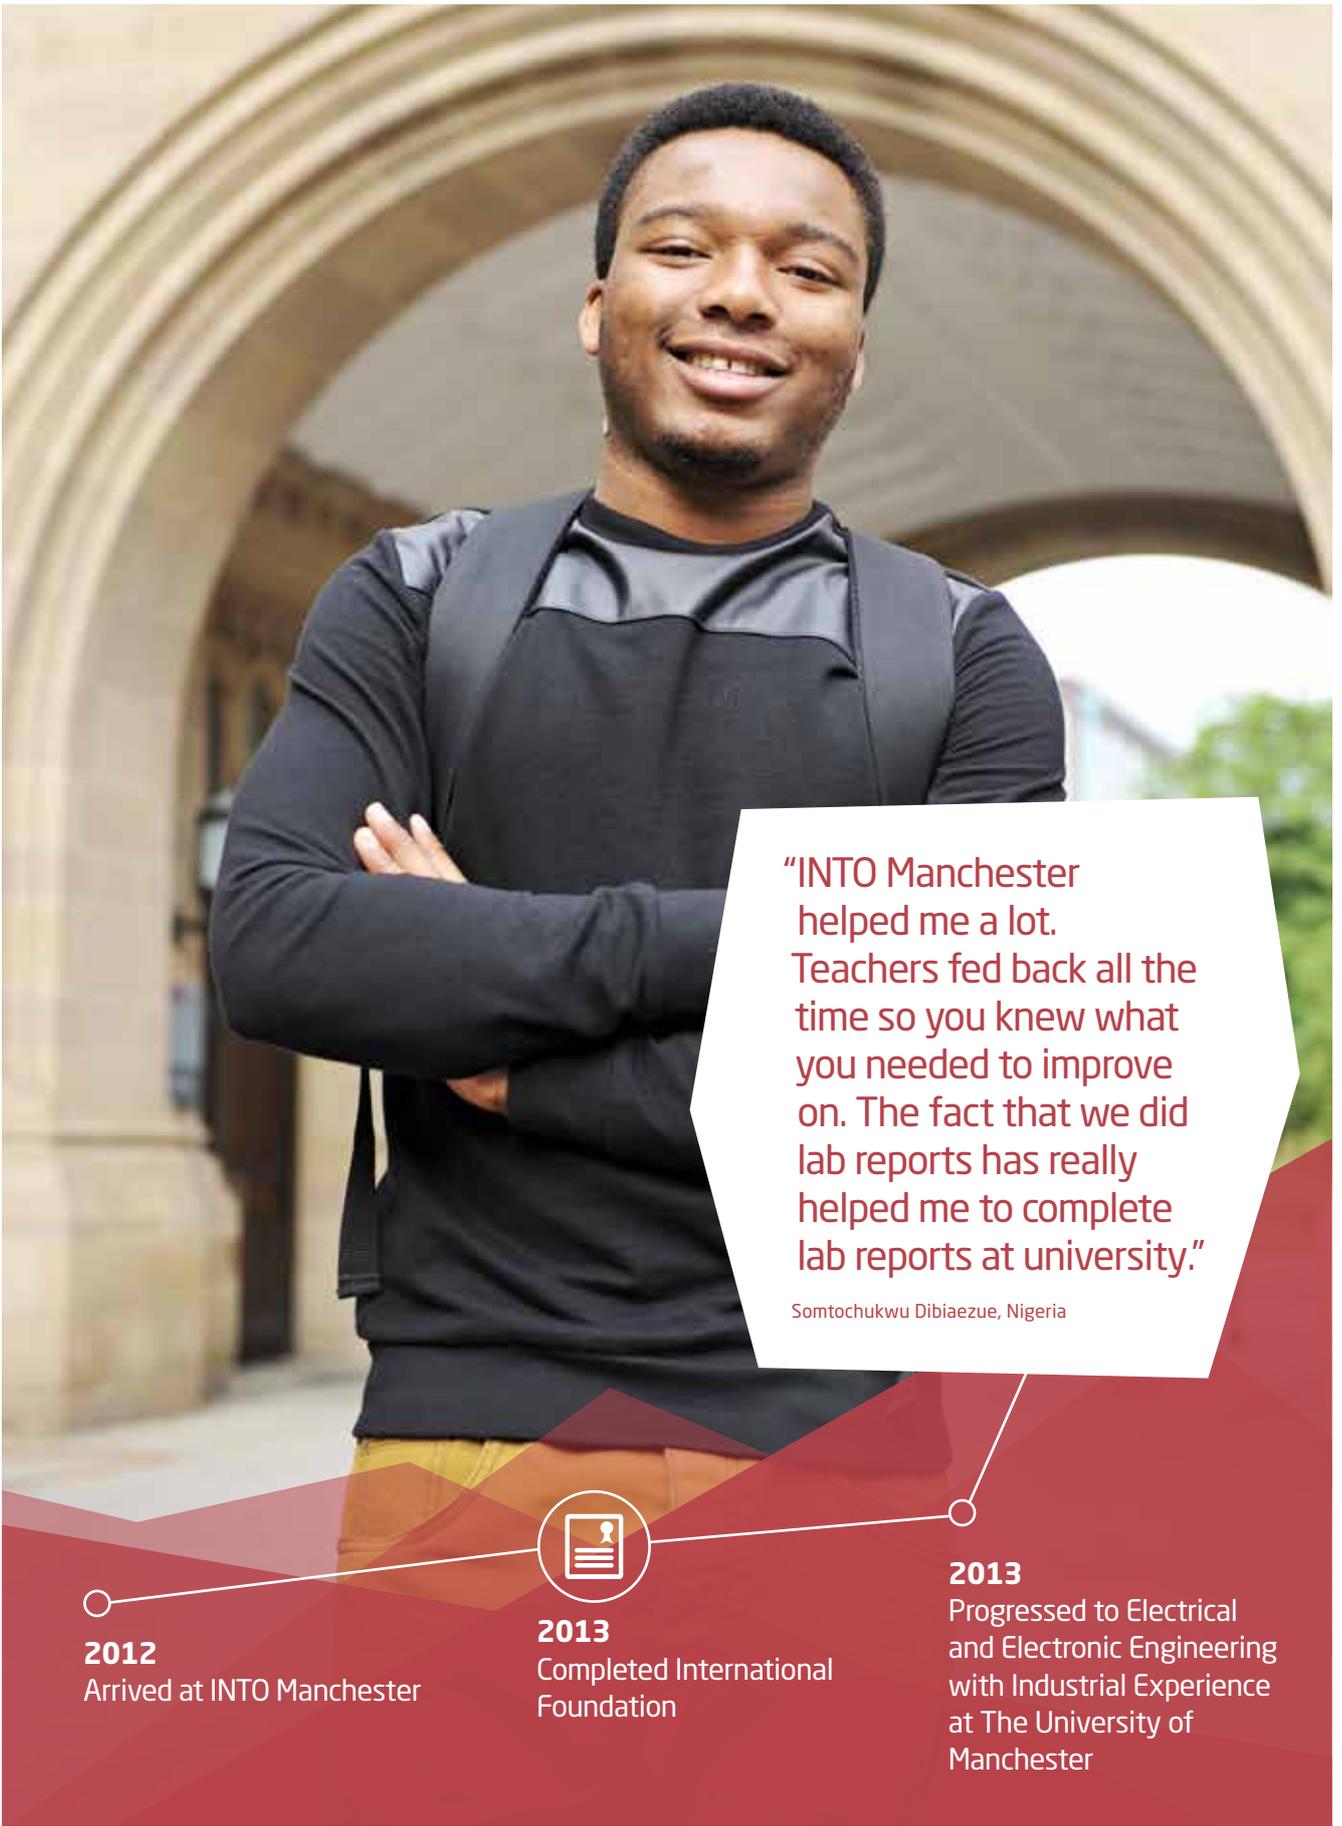

If you do not meet the minimum English language requirements you should apply for English Preparation for Foundation Students. See page 66 for course details.

For further guidance please check with the INTO Admissions Office or your education counsellor.

** All students commencing courses on a published September start date must be 17 years old by 31 December of that calendar year. For all other start dates, students must be 17 years old on the published start date of the course.

English language entry requirement

3 term: IELTS 5.5 (with a minimum of 5.5 in writing) or equivalent

4 term: IELTS 5.0 (with a minimum of 5.0 in writing and no less than 4.5 in any subskill) or equivalent

The Centre accepts other Secure English Language Tests (SELT) including Pearson PTE.

If you have achieved the minimum IELTS score overall but do not have the required score in writing for direct entry you will be considered on a case-by-case basis.

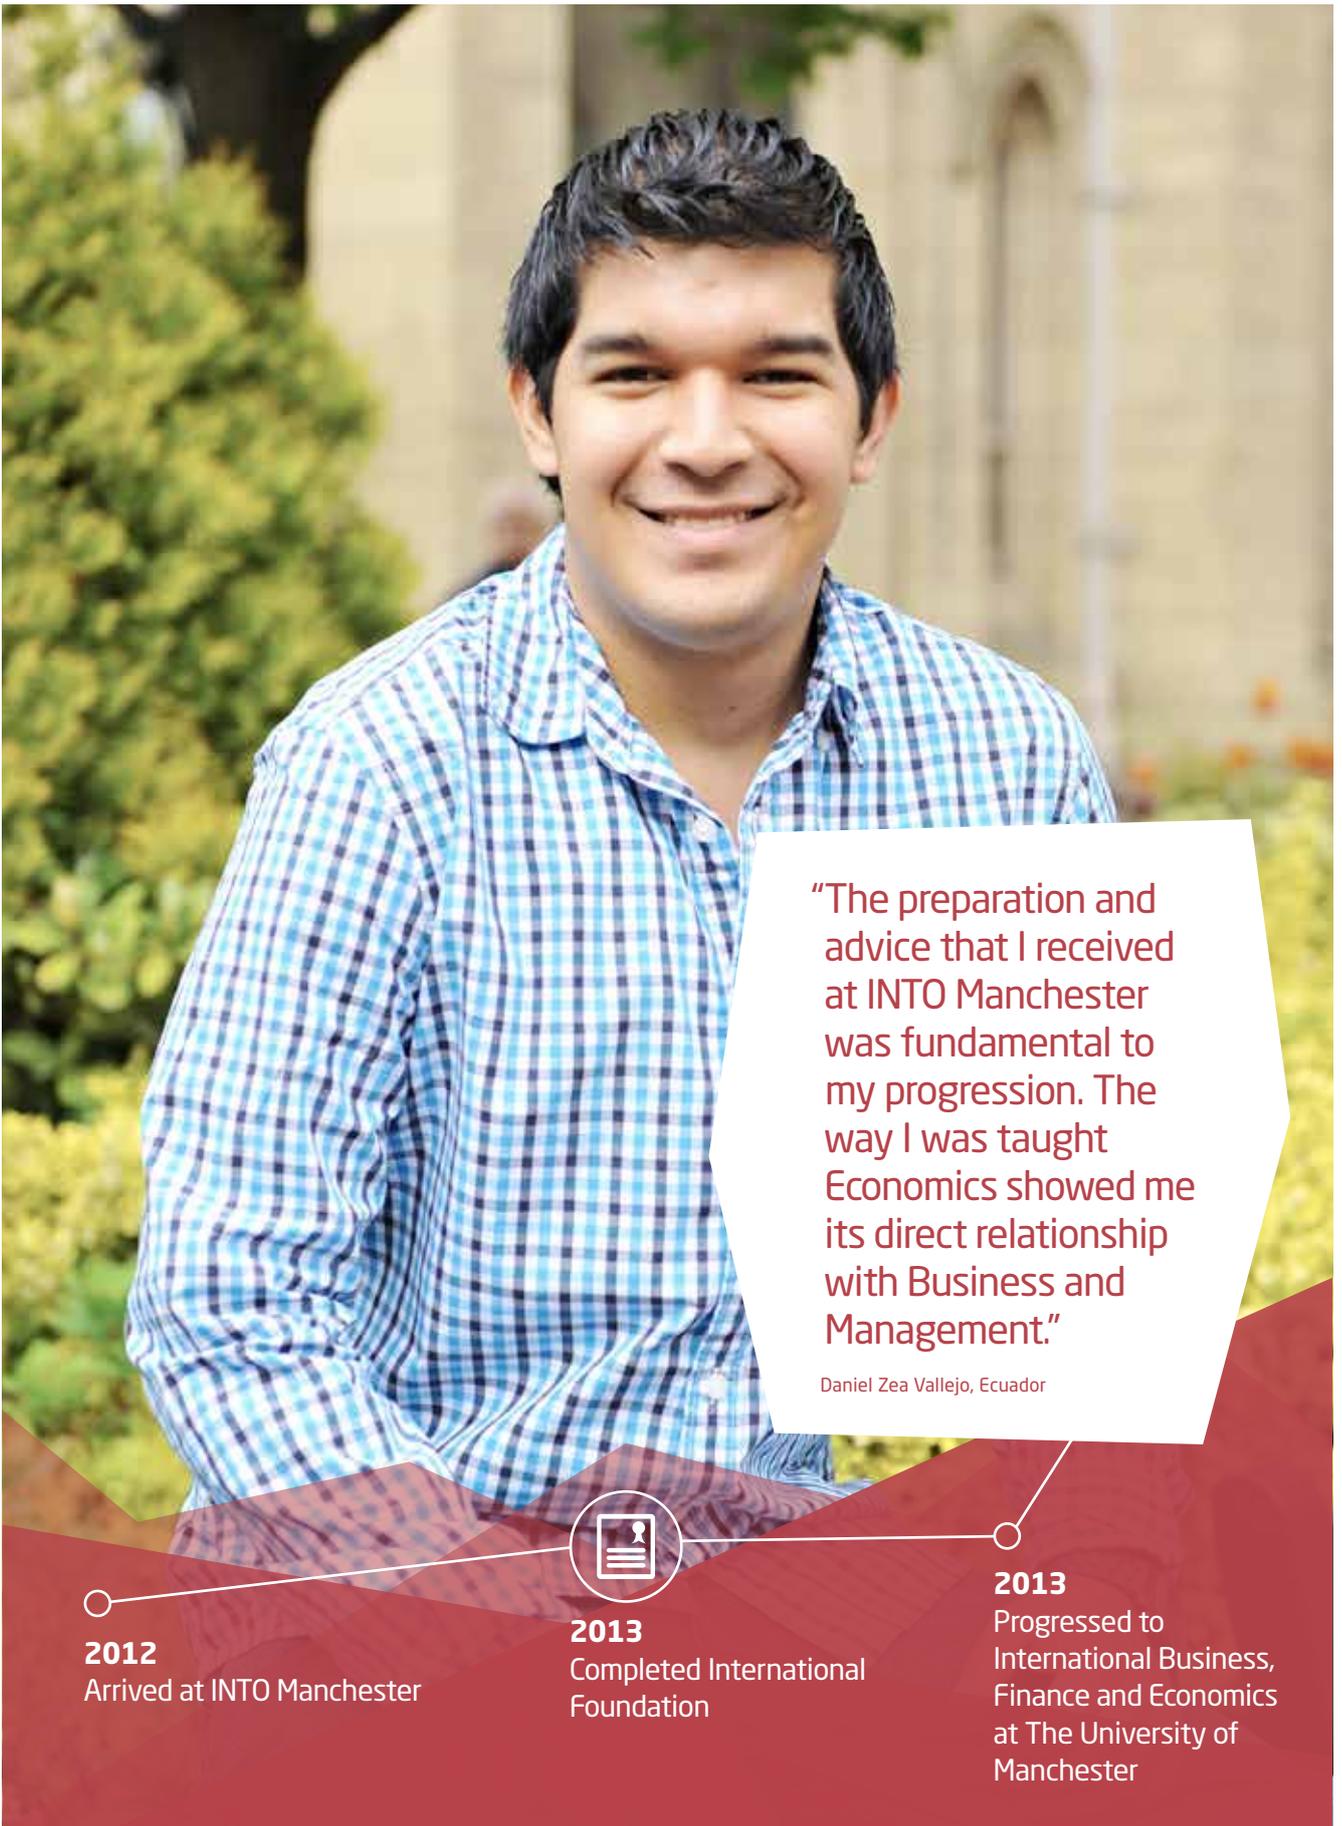

If you do not meet the minimum English language requirements you should apply for English Preparation for Foundation Students. See page 66 for course details.

For further guidance please check with the INTO Admissions Office or your education counsellor.

** All students commencing courses on a published September start date must be 17 years old by 31 December of that calendar year. For all other start dates, students must be 17 years old on the published start date of the course.

For course dates and prices, see page 78

“The preparation and advice that I received at INTO Manchester was fundamental to my progression. The way I was taught Economics showed me its direct relationship with Business and Management.”

Daniel Zea Vallejo, Ecuador

2012
Arrived at INTO Manchester

2013
Completed International Foundation

2013
Progressed to International Business, Finance and Economics at The University of Manchester

International Foundation Life Sciences

The Life Sciences pathway prepares you for entry to Year 1 of a wide range of undergraduate degrees, including Biochemistry, Biotechnology, Genetics, Life Sciences and Pharmacology.

Pathways leading to degrees in the Faculty of Life Sciences

Core modules	Specialist modules*
English for Academic Purposes and Study Skills	Biology
ICT	Chemistry
Independent Research	Mathematics

Skills in research, laboratory work and quantitative methods will be developed across all the modules.

* Please note the choice of subjects will depend on the student's chosen degree programme. Some subject combinations may not be available.

See page 65 for descriptions of core and specialist modules for this pathway.

Leading to undergraduate degrees at The University of Manchester in areas such as:

Anatomical Sciences; Biochemistry; Biology; Biomedical Sciences; Biotechnology; Cell Biology; Genetics; Life Sciences; Microbiology; Molecular Biology; Neuroscience; Pharmacology; and Plant Sciences.

Progression routes for study at The University of Manchester

As a successful Foundation student, you will have a wide choice of degree options. For more details on destination degree programmes and the grades required for guaranteed progression, see pages 56-64.

Key course facts

Start dates

September

Programme length

3 terms or approximately 9 months

Class hours

25 hours per week

Age requirement

17 years and above**

Academic entry requirements

Completion of 12 years of schooling (or the local equivalent to meet the same standard) with very good grades.

English language entry requirement

IELTS 6.0 (with a minimum of 6.0 in all subskills) or equivalent

The Centre accepts other Secure English Language Tests (SELT) including Pearson PTE.

If you have achieved the minimum IELTS score overall but do not have the required score in writing for direct entry you will be considered on a case-by-case basis.

If you do not meet the minimum English language requirements you should apply for English Preparation for Foundation Students. See page 66 for course details.

For further guidance please check with the INTO Admissions Office or your education counsellor.

** All students commencing courses on a published September start date must be 17 years old by 31 December of that calendar year. For all other start dates, students must be 17 years old on the published start date of the course.

“The International Foundation gives students a very good idea of what is expected of them at university. I found it very helpful and have learnt many new things about laboratories and industry apparatus. I also found the lessons to be very exciting; you are able to relate all the lab work to what you are being taught in academic classes.”

Maria Jose Salvador, Ecuador

International Foundation Pharmacy

The Pharmacy pathway prepares you for entry to Year 1 of the MPharm Pharmacy degree at The University of Manchester.

The Pharmacy pathway leads to degrees in the Faculty of Medical and Human Sciences (School of Pharmacy and Pharmaceutical Sciences)

Core modules	Specialist modules*
English for Academic Purposes and Study Skills	3 out of 4: Biology
ICT	Further Mathematics
Independent Research	Mathematics
Chemistry	Physics.

Skills in research, laboratory work and quantitative methods will be developed across all the modules.

* Please note the choice of subjects will depend on the student's chosen degree programme. Some subject combinations may not be available.

See page 65 for descriptions of core and specialist modules for this pathway.

Leading to an undergraduate degree at The University of Manchester in: Pharmacy.

Please note that INTO Manchester students are not required to attend an interview, however applicants who look to satisfy the University's requirements for entry will be asked to complete an online assessment, which will gauge communication and numeracy skills. Following successful completion of the online assessment an offer will then be made.

“The Foundation course allowed me to achieve the entry requirements for the Pharmacy course. We worked in the University’s labs and used the same equipment - this made me extra prepared and confident for university.”

Dana Alaynati, Kuwait

2012

Arrived at INTO Manchester

2013

Completed International Foundation

2013

Progressed to Pharmacy at The University of Manchester

International Foundation Psychology

The Psychology pathway prepares you for entry to Year 1 of a Psychology degree at The University of Manchester – one of the longest-established psychology departments in the UK.

The Psychology pathway leads to degrees in the Faculty of Medical and Human Sciences (School of Psychological Science)

Core modules	Specialist modules*
English for Academic Purposes and Study Skills	3 out of 8:
ICT	Biology
Independent Research	Business Management
	Chemistry
	Economics
	Further Mathematics
	Mathematics
	Physics
	Politics.

Skills in research, laboratory work and quantitative methods will be developed across all the modules.

* Please note the choice of subjects will depend on the student's chosen degree programme. Some subject combinations may not be available.

See page 65 for descriptions of core and specialist modules for this pathway.

Leading to an undergraduate degree at The University of Manchester in: Psychology.

"It's easier if a student wants to study at The University of Manchester to study at INTO Manchester first; INTO has a close relationship with the University. In order to progress, I was given a lot of help from the INTO Manchester staff."

Wang Meiting, China

Progression routes for study at The University of Manchester

Programme title	International Foundation required grades			
	EAP	Subject points	Pathway	Required subjects/minimum grades/comments
Accounting and Finance				
BSc (Hons) Accounting	B (no component below C but at least B in Reading and Writing)	N/A	Humanities and Social Sciences	AAA (including Maths and any two from Politics, Economics, and Business and Management)
BAEcon (Hons) Accounting and Finance	B	N/A	Humanities and Social Sciences	AAB (including Economics, Maths)
BAEcon (Hons) Finance	B	N/A	Humanities and Social Sciences	AAB (including Economics, Maths)
BAEcon (Hons) Finance and Economics	B	N/A	Humanities and Social Sciences	AAB (including Economics, Maths)
Aerospace Engineering				
BEng (Hons) Aerospace Engineering	C	340	Engineering and Science	AAB (including Maths, Physics)
MEng (Hons) Aerospace Engineering	C	360	Engineering and Science	AAA (including Maths, Physics)
MEng (Hons) Aerospace Engineering with Industrial Experience	C	360	Engineering and Science	AAA (including Maths, Physics)
MEng (Hons) Aerospace Engineering with Management	C	360	Engineering and Science	AAA (including Maths, Physics)
Architecture				
BA (Hons) Architecture	A	N/A	Humanities and Social Sciences	AAA (and submission of a satisfactory art portfolio)
Business and Management				
BAEcon (Hons) Business Studies	B	N/A	Humanities and Social Sciences	AAB (in Economics, Maths)
BAEcon (Hons) Business Studies and Economics	B	320	Humanities and Social Sciences	AAB (in Economics, Maths)
BAEcon (Hons) Business Studies and Politics	B	320	Humanities and Social Sciences	AAB (in Economics, Maths)
BAEcon (Hons) Business Studies and Sociology	B	320	Humanities and Social Sciences	AAB (in Economics, Maths)
BSc (Hons) International Business, Finance and Economics	B (with no component below C but at least B in Reading and Writing)	N/A	Humanities and Social Sciences	AAB (including Maths and any two from Politics, Economics, and Business and Management)
BSc (Hons) International Management	B (with no component below C but at least B in Reading and Writing)	N/A	Humanities and Social Sciences	AAB (including Maths and any two from Politics, Economics, and Business and Management)
BSc (Hons) International Management with American Business Studies	B (with no component below C but at least B in Reading and Writing)	N/A	Humanities and Social Sciences	AAB (including Maths and any two from Politics, Economics, and Business and Management)
BSc (Hons) IT Management for Business	B (with no component below C but at least B in Reading and Writing)	N/A	Humanities and Social Sciences	AAB (including Maths and any two from Politics, Economics, and Business and Management)
BSc (Hons) IT Management for Business with Industrial Experience	B (with no component below C but at least B in Reading and Writing)	N/A	Humanities and Social Sciences	AAB (including Maths and any two from Politics, Economics, and Business and Management)
BSc (Hons) Management	B (with no component below C but at least B in Reading and Writing)	N/A	Humanities and Social Sciences	AAB (including Maths and any two from Politics, Economics, and Business and Management)
BSc (Hons) Management (Accounting and Finance)	B (with no component below C but at least B in Reading and Writing)	N/A	Humanities and Social Sciences	AAB (including Maths and any two from Politics, Economics, and Business and Management)
BSc (Hons) Management (Human Resources)	B (with no component below C but at least B in Reading and Writing)	N/A	Humanities and Social Sciences	AAB (including Maths and any two from Politics, Economics, and Business and Management)

* We welcome applications from students on any pathway. However, those who take the 'Mathematics for Business' module will need to do some additional learning before University registration; online resources are available.

Please note: students can also progress from the humanities pathways to certain courses in Mathematics and Fashion/Business (Textiles) - the courses are identified in the tables above with †. Students studying Mathematics must have taken a Maths module. Any combination of subjects is acceptable for the specified Fashion/Business (Textiles) courses.

BSc (Hons) Textile Science and Technology	C	320	Engineering and Science	ABB (including Maths and either Chemistry or Physics)

* We welcome applications from students on any pathway. However, those who take the 'Mathematics for Business' module will need to do some additional learning before University registration; online resources are available.

[^] Evidence of science background at year 10/10th grade or higher, particularly chemistry.

Please note: students can also progress from the humanities pathways to certain courses in Mathematics and Fashion/Business (Textiles) - the courses are identified in the tables above with †. Students studying Mathematics must have taken a Maths module. Any combination of subjects is acceptable for the specified Fashion/Business (Textiles) courses.

Module descriptions

Detailed descriptions of the core and specialist modules for the International Foundation pathways are set out below.

Biology

This module takes an evolutionary approach to biology and considers different levels of organisation in living systems. You will study life processes showing fundamental similarities between living things.

Business and Management

This module examines key features of commerce, including models of management, the business environment and managing people and leadership. Teaching is mainly through seminars with the use of case studies and project work.

Chemistry

This module builds on the fundamental principles of general chemistry to develop concepts of physical, inorganic and organic chemistry. You will develop an appreciation of the social, environmental, economic and technological impact of chemistry on the community.

Economics

This module explores microeconomics and macroeconomics and includes key terminology, and important theoretical models and concepts used in both areas. You will look at various real-world applications and develop your skills in essay writing and presentations.

English for Academic Purposes and Study Skills

This module introduces reading techniques for academic study and the structure and function of academic writing. You will develop skills in writing English clearly and appropriately as well as the ability to take part in academic discussion.

The study skills component is an essential preparation for university life. It will help you work in groups, present ideas, manage your time, conduct research, make lecture notes, organise the content of essays and understand how to evaluate your work.

Further Mathematics

This module is intended for more expert mathematicians and extends into a wide variety of more complex areas of mathematics.

ICT (Information Communication Technologies)

This module will teach you how to use word processing, spreadsheet, database and presentation software, as well as using the internet, email and virtual learning environment (VLE) software in support of your learning.

Independent Research

The module is intended to prepare you for independent study through developing your research skills and abilities. The aim of this module is to:

- introduce you to the academic culture of UK higher education
- provide you with the intellectual development necessary for undergraduate study in the UK
- help support key study skills for successful undergraduate study.

Mathematics Part 1

In this module, you will develop a methodical approach to problem solving using mathematical techniques and theory.

Mathematics Part 2 (for Business)

In this module, you will develop your skills in mathematical topics that can be applied to the world of business, including statistics and probability.

Mathematics Part 2 (for Science)

This module develops mathematical topics that can be applied to the world of science and technology. Your studies will involve calculator-based, computer-assisted and computer-algebra activities and data-handling exercises.

Physics

A wide variety of topics is included of particular relevance to students wishing to pursue a degree in physics or an engineering-related field.

Politics

The module is designed to help you develop a critical awareness of British politics through knowledge and understanding of the different political institutions, the structures of authority and power within them, and how they differ from other countries.

English Preparation for Foundation Students

Helping you to develop the academic English and study skills you need to succeed on your International Foundation programme.

What is English Preparation for Foundation Students?

This is a year-round course of intensive academic English language study designed to prepare you for entry to the International Foundation programme, which is offered by the Centre to prepare you for undergraduate study at The University of Manchester. You will develop your English language and academic study skills, as well as research skills at higher levels, and with multiple start dates and different durations of study, the course has the flexibility to cater for students with different language levels.

The course suits a range of needs, and will teach you to:

- adapt to university-style teaching before progressing to the International Foundation programme
- learn the necessary research skills for university study
- improve your overall English language ability and academic presentation techniques.

What will I study?

You will initially focus on developing core English language skills, developing your knowledge and confidence in reading, writing, listening, speaking and pronunciation, grammar and vocabulary. After developing your core skills, you will focus on skills relevant to your study, including teamwork, problem solving, critical thinking and time management. The course comprises 20 hours of taught lessons per week plus one hour of directed private study, which will be supervised by your tutor. In order to make good progress, you are expected to do approximately 20 additional hours of private study outside class, which may include homework, assignments or coursework that will be submitted for assessment, as well as online learning.

Assessment

At the end of each term, your skills and language will be assessed to give a clear indication of your progress. Methods of assessment may include:

- written assignments
- presentations
- research projects
- reading, writing and listening examinations.

Course outcomes

Assuming you have met the academic entry requirements, achieving the required level of English offers assured progression to the International Foundation programme.

Key course facts

Start dates

September, January, April and June

Programme length

1, 2 or 3 terms

Class hours

20 hours per week*

Age requirement

16 years and above

English language entry requirement

IELTS 3.0 (with a minimum of 3.0 in writing) or equivalent

The Centre accepts other Secure English Language Tests (SELT) including Pearson PTE.

If you do not meet the minimum English language requirement contact the Centre for details of General English courses.

For further guidance please check with the INTO Admissions Office or your education counsellor.

* Please note lessons are one hour including an allowance for class changeover.

Accredited by the

"It's good for students to learn English before their Foundation course. It will help you to understand what the teachers will say in the academic subjects."

Kritsada Sangkhacho, Thailand

Scholarships

INTO Manchester invites applications for the INTO Manchester International Foundation Scholarships. For high-achieving students commencing the International Foundation programme in September 2015, the Centre is offering a number of 50% scholarships valued at £7,750 towards your tuition fees.

International Foundation Scholarships

The scholarships are available to all international students who hold offers for the following programmes:

- International Foundation in Engineering and Science
- International Foundation in Humanities and Social Sciences
- International Foundation in Life Sciences.

Start date

September 2015

Number of scholarships

Three scholarships

Value of award

£7,750

Scholarship deadline

Wednesday 15 July 2015

How to apply

The scholarships will be awarded on academic merit and students will be required to complete a separate scholarship application form to apply.

For full details, please visit:
www.intohigher.com/manchester/scholarships

“It’s been a lot of work - one year of Foundation, three years of university - but I’m feeling really great. My future is a source of excitement to me. I have a few options, mostly to do with law.”

"I provide support to applicants ensuring that they are aware of the entry requirements, the courses available and the progression opportunities."

Andrew Horswill, Enrolment Services Counsellor

Successful applicants receive an offer letter

Success at
INTO Manchester

How to apply

An easy application process to follow from anywhere in the world.

Supporting your application

Whether you decide to complete your application with the support of an education counsellor in your home country or apply directly, we offer a simple application process and we will support you every step of the way.

Throughout the process our multilingual Customer Relations Advisers are available to help answer your questions. They can speak a range of languages including English, Mandarin, Cantonese, Arabic, Russian, Spanish, Japanese, Lithuanian, French, Italian, Polish and German.

How do I apply?

You can apply through a local education counsellor. They will help you to complete the application form and send it along with your supporting documentation to our Admissions Office.

You can also apply online:

www.intohigher.com/manchester/apply

What documents do I need to include?

- Completed application form, signed by the student or the parent/legal guardian.
- Copy(ies) of relevant academic certificate(s) in English.
- Copy(ies) of English language certificate(s) in English.
- Full details of previous study in the UK.
- A copy of your passport.

What next?

After carefully reviewing the application, if successful, we will send a formal offer of a place. For complete applications, this is usually within two working days.

Once we have received the tuition fee and accommodation deposit (as detailed in the offer letter) and all the conditions of the offer have been met, we will send a Confirmation of Acceptance for Studies (CAS) from INTO Manchester, which is needed in order to apply for a Tier 4 (General) visa.

"My role as an admissions adviser involves communicating with students and education counsellors all over the world to assess and assist with applications. This support starts when an initial enquiry is sent and continues until the student arrives in the UK. I love working with such a dynamic and diverse range of people and am dedicated to providing the best service I can."

Naomi Cromby, Admissions Adviser

A brighter future for just £25

We're delighted you have chosen INTO Manchester and look forward to helping you achieve your dreams.

But did you know there are 57 million children globally not enrolled in school?

Parents everywhere share a desire to give their children the best possible start in life but, sadly, a basic education is still beyond the reach of many young people around the world.

As part of our commitment towards learning, INTO has set up INTO Giving, a charity that helps improve both access to and quality of education for young people living in difficult circumstances.

When children go to school and learn, they create opportunities, transforming and empowering their lives and their community.

Donate £25 and help provide the education they deserve.

On your application form you can opt to donate £25 to INTO Giving and INTO will match your funds, increasing the donation to £50. Every penny you donate will go straight to the INTO Giving educational projects.

For more information visit www.into-giving.com

Help transform lives by supporting our educational projects around the world.

One Gloucester Place, Brighton, East Sussex BN1 4AA | T: +44 [0]1273 665200 | F: +44 [0]1273 679422 | E: info@into-giving.com
Charity name: INTO GIVING LIMITED | Charity registration number 1126262 | Company number: 6689824

Important

1. Application of the Terms and Conditions

- These terms and the offer letter (together the "Terms and Conditions") set out the contractual terms which apply between INTO Manchester Ltd (INTO Centre or "INTO") and students ("Students") in relation to the English language courses and/or academic programmes and any other INTO courses (the "Course").
- As such, Students should ensure they read the Terms and Conditions very carefully before signing and submitting their application for admission to the INTO Centre.

2. Application to the Course and Confirmation of Acceptance

- To apply for a place on a Course, Students should complete their application and submit it to the INTO Admissions Office.
- INTO may accept or reject applications in its absolute discretion. If INTO accepts the application, INTO will issue a written offer of a place on a Course to the Student (including any conditions relevant to the offer) (the "Offer Letter") together with an acceptance form for the Student to confirm their acceptance of the offer of the place.
- In order to accept the offer, the Student must:
 - complete and return to INTO the acceptance form confirming acceptance of the offer of the place indicated in the Offer Letter;
 - pay a deposit as described in the Offer Letter which will be used towards the tuition fees due for the Course. The amount of the deposit required will be shown in the Offer Letter; and
 - pay the Uniplan Insurance premium (details of which are set out in this brochure) and submit the completed Uniplan form to INTO or provide proof of an acceptable alternative insurance cover.
- After completion of the actions listed in paragraph 2c above, the contract between the Student and INTO is formed. However, if the offer is 'conditional', the contract shall not come into force unless and until the Student meets the conditions of the Offer Letter and completes the actions listed in paragraph 2c above.

3. Tuition fees and payment

- The balance of the invoice including tuition fees payable for the Course, enrolment fee and any insurance fees (if applicable) payable must be paid to INTO no later than six weeks prior to the start date of the Course (which is stated in the Offer Letter). Details of indicative course dates are included in this brochure.
- The invoice including tuition fees, enrolment fee and insurance fees (if applicable) must be paid in full in pounds sterling by cheque, banker's draft, bank transfer, credit card or debit card.
- If bank, credit or debit card charges are incurred by INTO on such payments, where these charges have been incurred through no fault of INTO, these will be re-invoiced to the Student's account so that INTO receives the payment in full.
- Tuition fee deposits are non-refundable unless the Student is unable to meet visa entry requirements (in which case the Student will be required to provide an official visa rejection letter to INTO - further details of which are set out in section 10 below) or meet conditions of offer (details of which are set out in section 11 below).
- Any variation to standard payment terms will only be made by prior agreement in writing by the Centre Director of the INTO Centre.
- The prices stated in this brochure are valid for confirmed bookings (with payment) received by INTO on or after 01 January 2015 and until further notice. Please contact INTO for further details or visit the website.

4. Other fees

- One to one tuition - Any Students who require 1:1 tuition must agree such tuition with the INTO Centre in advance. English language tuition will be charged at £75 per hour and will be invoiced in advance. One to one for other subjects may be available and charges may vary. For such tuition, the student should speak to the Academic Director in the INTO Centre in the first instance.

5. Overdue fees

- In cases of overdue payment of any of the fees owed by the Student, INTO reserves the right to suspend or cancel tuition and to charge interest on the outstanding balance. Interest will be charged on any outstanding fees at the rate of 2.5% above the base rate of Barclays Bank per month or part thereof from the due date (either six weeks prior to course commencement or date of receipt of visa) until payment.
- INTO reserves the right to withhold any academic results or certificates, if fees are still owed by the Student at the end of their Course.
- Fees remain payable if a 'notice of withdrawal' has not been given in accordance with these Terms and Conditions.

6. Changes to Confirmation of Acceptance for Studies ("CAS")

- INTO will issue a CAS, no more than six months before the Student's first Course start date provided that:
 - the Student's offer is unconditional; and
 - the Student has paid their deposit or full fees as set out in the Offer Letter.
- Before issuing the CAS, INTO will confirm with the Student that the details to be included in the CAS are correct. Once the student has confirmed that the details are correct, INTO will submit the details to the Home Office.
- If the Student requests any changes to the information on the CAS (other than an update to the 'Fees paid to date' information after making further payments) after INTO has submitted the details to the Home Office and a new CAS is required, the Student will be charged for each request at the then prevailing rate. At the time of going to print the cost is £14 but is subject to review by the Home Office.

7. Cancellation charges

- Subject to paragraphs 8 and 9 below, if the Student wishes to cancel their place on the Course prior to the Course commencing, then, unless such cancellation is due to visa refusals, and/or academic and/or English Language conditions on the Student's Offer Letter not being met, the following charges apply:

Academic programmes and English Preparation for Foundation Students Courses

Tuition fee cancellation charges:

Four weeks or more before commencement: cancellation fee of £500
 Less than four weeks before commencement: cancellation fee of £1000
 Cancellation after course commencement: cancellation fee of one term's full fees

Accommodation fee cancellation charges:

Four weeks or more before commencement: cancellation fee of £500
 Less than four weeks before commencement: cancellation fee of £1000

- Cancellations must be made in writing to the INTO Admissions Office, One Gloucester Place, Brighton, BN1 4AA. Cancellations will become valid on the day the written notice is received by INTO.

- Cancellation charges will be deducted from the deposit and/or tuition fees paid by the Student or, if no deposit and/or tuition fees have been paid by the Student, INTO will invoice the Student for the cancellation charges. Payment shall be due within 30 days of the date of such invoice.
 - Cancellation of a Course prior to the start date of the course includes cancellation of any Uniplan Insurance policy. If you cancel your Uniplan Insurance policy either within the 14 day cooling off, or after this period, a charge will be made based on the number of days you have had cover less a cancellation fee of £25.00, unless you have travelled or a claim or an incident likely to give rise to a claim has occurred, in which case no refund will be due. Please note once a student has commenced their Course then no cancellation of the insurance cover is possible and there is no refund due for the Uniplan premium.
- ### 8. Leaving a Course early
- If a Student wishes to withdraw from their Course, they must notify the INTO Centre in writing as described above in the section 'Cancellation charges'. Once a student has arrived in the UK and commenced their course in the centre, there will be no refund of fees.
 - Accommodation cancellation charges will apply as outlined at paragraph 21 below.
- ### 9. Contracts made by distance communication
- If INTO has made its offer for a place on the Course and the offer has been accepted by the Student solely by means of distance communication (i.e. if up to the point when the contract is concluded there has been no face-to-face contact between the Student and INTO or INTO's representative) then the contract between us is a "Distance Contract".
 - Students are entitled to cancel a Distance Contract at any time up to the earlier of:
 - 7 days from the date when the Distance Contract is concluded; or
 - the date on which the Student starts the Course.
 - In order to cancel the Distance Contract, the Student must inform INTO in writing at the INTO Admissions Office, One Gloucester Place, Brighton, East Sussex, BN1 4AA within the time periods set out in paragraph (b) above.
 - If any payment has been made by the Student to INTO under these Terms and Conditions prior to the date of cancellation then a full refund will be provided by INTO using the same payment type as soon as possible but, in any event, within 30 days of receipt of the Student's notification of cancellation.
- ### 10. Cancellation or deferral because of Visa refusal/Visa delays
- Students are entitled (provided such refusal/delay is not the result of any fraudulent activity) to cancel or defer a Course due to refusal or non receipt of a necessary visa providing that the Student informs the INTO Admissions Office in writing and sends evidence to INTO of the visa refusal or that the Student advises INTO that they have not yet received the relevant visa from the Embassy as early as possible and in any event no later than two weeks after the Student's proposed Course start date (or one week for English for Foundation students).
 - Cancellation charges (except for Uniplan Insurance cancellation fees which will apply as outlined above in paragraph 7d) will not be incurred in the circumstances described in paragraph (a) above provided that the Student complies with the notice requirements set out and any deposit and/or tuition fees already paid will be refunded accordingly. Failure to provide the relevant information in the timescales set out in paragraph (a) will result in normal cancellation charges applying as set out in paragraph 7 and no fees already paid will be refunded.
 - If the visa refusal states that the visa has been refused due to any type of fraudulent activity by (or with the approval of) the Student then, notwithstanding paragraph 10b, the Student shall be liable for full deposit which will become non-refundable and the total of all claims, damages, losses (including consequential and indirect losses) and expenses incurred as a result of such fraud and the need to comply with any associated internal or external investigation.
- ### 11. Cancellation because conditions of offer are not met
- If INTO's offer to the Student is conditional upon the Student meeting the requirements set out in the Offer Letter, INTO reserves the right to withdraw its offer to the Student if the requirements of the Offer Letter are not met.
 - If a Student does not meet the conditions of the Offer Letter (Academic or English language), provided that the Student informs INTO in writing and sends evidence that the conditions have not been met as early as possible but at least four weeks before the Course start date, no cancellation charges will be payable by the Student to INTO. This information must arrive at the INTO Admissions Office in the UK no later than four weeks before the Course start date or the day after the Student's exam results are published (if this falls after the four week cut off point). If INTO receives the relevant information (including evidence of the date of publication of the results if this falls after the four week cut off point) within the timelines outlined above, any deposits/fees already paid (minus the Uniplan Insurance cancellation fees as outlined above in paragraph 7d) will be refunded by INTO to the Student. Failure to do this will result in normal cancellation charges applying (as set out above) and no fees will be refunded.
- ### 12. Deferrals
- A Student may defer the start of a Course if the Student has been prevented by external events from starting the Course, up to a maximum of two occasions. An external event includes (without limitation) serious illness or injury of the Student or of a close member of the Student's family.
 - Students must ensure that any request to defer is accompanied by a full explanation of the reasons for the request, is presented in writing and reaches the INTO Admissions Office in the UK at least six weeks before the Course start date. If INTO receives the request after this date, normal cancellation charges will apply (see the 'Cancellation charges' section above). The request should also include details of the Student's preferred new start date for the Course.
 - All deferrals are subject to the availability of the requested chosen new Course start date at the time INTO receives the Student's request to defer.
 - Any deferral requests in excess of the two occasions referred to above will be considered by the INTO Admissions Office on a case-by-case basis and acceptance of a deferral request will be at the INTO Admissions Office's sole discretion.
 - On the basis that a new CAS will need to be issued if a request to defer is successful, the Student will be charged the fee in respect of the new CAS (as described in paragraph 6c above).
 - Student accommodation will need to be re-booked and is subject to availability.
 - If the reason for deferral is due to visa refusal, the provisions set out under section 10 above shall apply.
- ### 13. Academic criteria and attendance
- Students are accepted onto the Course on the strict understanding that progression through the Course and successful completion of the Course are conditional upon satisfactory attendance and successful attainment of specified progression grades.
- Students are accepted onto the Course on the strict understanding that they attend all classes. By signing the application form, the Student accepts that if they fail to attend classes without good reason, or without the permission of the Programme Manager for the Course or a member of the Centre Senior Management Team, they may be deemed to have withdrawn or be required to leave the Course. In the case of students studying on a Tier 4 visa, the Centre may also report the situation to the Home Office.
 - During the Course induction all Students will be made aware of the criteria for successful completion of the Course. The assessment of student performance may take into consideration coursework, internal centre examination results, attendance, effort in class and homework.
 - Students who do not meet the academic and/or any other attainment criteria for successful completion will not be allowed to proceed with their intended study plan. In such cases, Students will be offered advice on suitable alternative study options.
 - Students who do not meet the attainment criteria for progression from an English language programme, or who are identified at being at serious risk of not meeting the attainment criteria for progression from an English language programme, to their intended Course of study (including Extended courses) will be offered advice on alternative study plans which may include further study on the English language Course. In some cases, an alternative study plan may involve additional time and expenditure with regard to tuition and accommodation fees.
 - INTO reserves the right not to re-enrol a student if their prior attendance has been unsatisfactory.
- ### 14. English language admissions criteria
- Offers are made to Students for both English language and academic Courses on the basis of the certification provided by the Students that they meet the admissions criteria. If, however, the results from the tests and assessment procedures on arrival provide clear evidence that a Student's actual level of English language proficiency is significantly lower than claimed and lower than that required for their designated Course or for visa entry purposes, then the Student will be formally advised of the results and of their options.
 - Where 14a applies, Students will not be allowed to proceed with their original Course and will be advised as to possible alternatives. Such alternatives may include:
 - an alternative study plan which may involve additional time and expenditure up to £1,000 with regard to tuition and accommodation fees; or
 - if the English Language level is below the level for visa entry purposes then the Student will have to return home.
- ### 15. Behaviour, welfare and attendance
- By signing the application form, the Student consents to INTO requesting and receiving any relevant information from any University school, service or centre concerning the Student's behaviour, welfare and attendance, and to allow the efficient operation of the Centre.
 - If the Student has welfare and/or pastoral problems or concerns, the Student should in the first instance refer to the INTO Student Handbook or contact the Head of Student Services or the Student Services team.
 - By signing the application form the Student agrees to adhere to the INTO Centre Code of Practice. INTO will withdraw any student whose behaviour breaks the Centre's code of conduct.
- ### 16. Class times and sizes
- For all Courses, classes will normally be held Monday to Friday between the hours of 08:00 and 19:00 but INTO reserves the right to hold classes outside of these times.
 - The maximum class size is normally 20 students for English for University Study and English language modules on academic Courses. However, where appropriate, classes may be combined for university style lectures.
 - Lessons will take place in the form of classes, seminars, workshops and lectures. Academic subject class sizes will vary depending on the learning format (e.g. lecture, seminar, lab practicals).
 - Examinations may be held in the evening, on weekends and public holidays, and at venues outside of the main centre.
- ### 17. Holidays
- No regular classes will take place at INTO on recognised UK public holidays
 - No refunds will be made for classes not taking place on these dates.
 - On occasion examinations may be held on these dates. Term dates relevant to individual Courses are published in this brochure and no classes will take place outside these dates.
- ### 18. Arrivals
- Students must arrive in the UK on the Saturday or Sunday before the Course start date and register and enrol at the Centre on the published start date.
 - Late arrivals - INTO expects all Students to arrive and start their Course on the scheduled start date. However, INTO recognises that Students are sometimes delayed for unavoidable reasons (these would include, for example, cancellation of, or delays to, flights or other transport). In exceptional cases, the INTO Centre will allow Students to arrive up to two weeks after the published start date for academic Courses and up to one week late on English language Courses. Unavoidable late arrivals must be approved in advance by the Head of Admissions of INTO as soon as the Student becomes aware that he or she will not arrive in time for the scheduled start date.
 - If, due to late arrival, a new CAS has to be issued, there will be a charge for the issuing of the new CAS (as set out in paragraph 6c above).
 - No discount or refund of fees will be given for late arrivals.
- ### 19. Accommodation
- At the time of application to the Course, Students are invited to select their preferred accommodation. INTO aims to provide the accommodation as requested but, if this is not available, INTO reserves the right to provide an alternative type of accommodation. This will be charged at the published rate for such accommodation as set out on the fees page within this brochure.
 - Accommodation is allocated as per the instructions on the application form and upon receipt of the signed copy of the student's acceptance form and payment of the appropriate accommodation deposit (as evidenced by the Student's invoice). Under 18s are required to stay in INTO accommodation unless full details have been provided of alternative living arrangements with a named adult over the age of 21.
 - Students will be sent a copy of the accommodation terms and conditions with their offer letter and are required to agree to them when returning the acceptance form.
 - The accommodation deposit is described in the Offer Letter. Accommodation is guaranteed once the deposit has been paid, the student has returned a ticked and signed Acceptance Form, and the Student has received confirmation that the type of room they have requested is available.
 - INTO accommodation is only available to Students who are registered on full-time INTO Courses.

- f. Accommodation is not available to family members of Students (unless they are also registered on full-time Courses at INTO).
- g. INTO advises Students to insure their personal belongings. INTO shall have no liability for any loss, theft and/or damage to Students' personal belongings. INTO can provide details of insurance policies on request.
- h. Where a Course spans a holiday period accommodation fees will still be charged for those periods.
- i. Damage and sundry expenses deposit – All Students will be required to pay a damage and sundry expenses deposit of £500 which will be invoiced at the time of booking their course and shall be payable at least six weeks prior to the start date of the Course. Such deposit is refundable at the end of the Course minus any costs not already paid in Centre for any damages, exceptional cleaning or fines which have been incurred either to the residential/homestay accommodation or the premises and/or facilities which are discovered during occupancy or once an inspection has taken place after the Student's departure. The INTO Centre will repay any monies owing within 60 days of the Student's final Course end date.
- j. The damage and sundry expenses deposit is to cover outstanding damages and repairs once the Student has vacated the property and/or any fines or damage charges incurred during the study period remaining unpaid at the time of the Student's departure.
- k. Breakages – Students are responsible for payment of any damage caused by them to property owned or occupied by the University (where applicable) or the INTO Centre. Students in residential accommodation may be required to sign an inventory on arrival and departure. The INTO Centre reserves the right to recover costs for damage or exceptional cleaning from Students. Any damage which requires repairs and/or exceptional cleaning which occurs whilst the Student is living in the property or is required following the Student's departure will be charged to the Student separately at the going rate. Any damage discovered during the student's stay will be invoiced at that time and payment will be due immediately. Charges for damage discovered after departure will be deducted from the deposit payable by the Student as set out in paragraph 19i above. If the amount due is in excess of the deposit paid by the Student, INTO will invoice the Student for the excess amount. The Student shall pay any such amounts to INTO within 30 days of the date of the invoice.

20. Accommodation fees

- a. All accommodation fees for the entire duration of the accommodation booked must be paid in full in pounds sterling by cheque, banker's draft, bank transfer, credit or debit card at least six weeks prior to the start date of the Course. If bank, credit or debit card charges are incurred by INTO on such payments, where these charges have been incurred through no fault of INTO, these will be re-invoiced to the Student's account so that INTO receives the payment in full.

21. Accommodation changes or cancellation when a Student has arrived and moved into their Accommodation

- a. Residential/homestay accommodation – In all cases except visa refusals, Students who wish to cancel their accommodation booking will be subject to the cancellation fees as set out in the copy of the accommodation terms and conditions they will have received with their Offer Letter.
- b. Students are bound by the terms and conditions of their accommodation contract.
- c. Full accommodation charges will apply during any notice period as outlined in the accommodation contract.
- d. No change to the type of accommodation arrangements will be made without the written permission of the Head of Student Services or the Centre Director. This permission will only be given in exceptional circumstances. If a Student makes a change to his/her accommodation arrangements or leaves accommodation provided by INTO without the prior written consent of the Centre Director, the Student shall remain liable for the full accommodation payments invoiced or reserved at the time of confirmation.
- e. A Student under the age of 18 may only move to agreed alternative private accommodation where the Student's parent or guardian have certified to INTO that this is the case and that the provision of accommodation by INTO is no longer required. For the avoidance of doubt the Student shall remain liable for the full accommodation payments invoiced or reserved at the time of confirmation in respect of the vacated property.
- f. Residential accommodation may not be available over the two week Christmas period to Students who are under 18 years old. The INTO Centre can assist with alternative arrangements which may incur an additional charge.

22. Airport pickups

- a. Airport pickups may be booked as specified earlier in this brochure. The airport pickup will be for the passenger named on the application form only or for named Students if Students agree in advance (and notify INTO) that they wish to share an airport pickup.
- b. Additional family members or chaperones accompanying the named passenger will be charged additional fees.
- c. The first 30 minutes of waiting time is included in the fee as specified in this brochure. Additional fees may apply for waiting periods longer than 30 minutes.
- d. Fees will only be refunded for 'missed pickups' if the Student informs INTO, by telephoning the INTO emergency telephone number (as publicised in the pre-departure guide), that their pickup will not be required or that they will be delayed before they leave the departure airport, or if they have arrived at their destination airport and the transfer is a no show, they telephone the INTO emergency telephone number (as publicised in the pre-departure guide), that their transfer is a no show before they leave the arrival airport.
- e. Airport transfer fees must be paid for at least 6 weeks prior to the course start date.
- f. Airport pickups are compulsory for students under 18, unless parents provide INTO with evidence that they have made alternative arrangements for the collection of their child from the UK entry airport. A similar compulsory delivery of students under 18 to their departure airport applies.

23. Travel to the INTO Centre

- a. INTO expects Students to assist INTO with its Green Travel Plan, as may be reasonably required.
- b. Students may not bring cars to campus unless otherwise agreed in advance by INTO. Please contact INTO for further details of our Green Travel Plan.

24. Record keeping duties under TIER 4 Immigration rules (PBS)

- a. INTO is required to keep a copy of Students' passport, identity card for foreign nationals or United Kingdom immigration status document and Students' UK contact details.

- b. Under the TIER 4 Immigration rules (PBS) the sponsor licence holder will report to the Home Office in the following circumstances:
- if the Student fails to enrol on the Course within the enrolment period;
 - if the sponsor licence holder stops being the Student's immigration sponsor for any other reason, for example, if the Student is withdrawn or moves into an immigration category that does not need an approved education provider;
 - if there are any significant changes in the Student's circumstances, for example, if the length of a course of study becomes shorter; or
 - if INTO has any suspicions that the Student is breaking any conditions attached to their permission.

25. Medical treatment and accident insurance

- a. Acceptance by the Student (or by his/her parent or legal guardian if the Student is under 18), of a place to study at the INTO Centre indicates that the Student (or parent/legal guardian if the Student is under 18):
- gives permission for the administration of first aid and appropriate nonprescription medication to the Student if required; and
 - if the Student is under 18, for INTO to recommend that the Student seeks medical, dental or optical treatment when required.
- b. All Students must maintain a valid and comprehensive medical and accident insurance policy for the duration of their stay. Students unable to provide evidence of adequate cover at the time of their application are required to take up the Uniplan Insurance cover as a condition of enrolment.

26. Students who are under 18

- a. INTO strongly recommends that parents appoint a UK based guardian for international Students under 18 years of age.
- b. If parents are making their own arrangements for either guardianship services or a friend or family member in the UK to act as guardian to the Student, then evidence of these guardianship arrangements and contact details thereof must be supplied at time of confirmation.
- c. Parents of Students under 18 must sign a consent form authorising nominated INTO staff to act (on behalf of the parent) in the case of an emergency. They must also complete a medical information form. The forms will be included with the INTO offer documents and must be completed and returned to INTO at the confirmation stage. Confirmation documents will not be issued unless these forms are returned. Failure to return these forms could result in a Certificate of Acceptance for Studies not being issued.
- d. In the case of Students under 18, any reference in these Terms and Conditions to liability of Students shall also infer liability on the parents or guardian of the Student and such liability is joint and several.

27. Student information

- a. Students agree that copies of their regular reports on their academic progress and performance can be supplied to parents, sponsors or agents without notification, by completing the student record section of the application form.
- b. Students agree that if INTO has serious concerns about their welfare, INTO can contact their parents or family members without notification. Consent is hereby given by the Student to the above until formally withdrawn in writing.
- c. Students and, if the Student is under 18, the Student's parents/guardians/sponsors hereby consent that the Student's records and achievements, images and sound may be used for promotional purposes, by completing the student record section of the application form.
- d. INTO is obliged to report visa status, attendance records and UK contact details to relevant UK government bodies and will do so in accordance with its legal obligations under relevant legislation (including under the Data Protection Act 1998).
- e. INTO may disclose information about the Student for the purposes of (without limitation):
- the administration of justice;
 - the exercise of any functions of either House of Parliament;
 - the exercise of any functions conferred on any person by or under any enactment;
 - the exercise of any functions of the Crown, a Minister of the Crown or a government department; and/or
 - the exercise of any other functions of a public nature exercised in the public interest by any person, e. necessary for legitimate purposes and justified by the Data Protection Act.
- f. INTO will process personal information provided to it by Students in accordance with the Data Protection Act 1998 and any other applicable data protection legislation. For further information about how INTO handles and uses personal data please see INTO's Privacy Policy which can be viewed at www.intohigher.com/uk/en-gb/footer/legal-and-privacy.aspx.
- g. INTO will only use the personal information provided to it by Students in order to provide and administer the course. Please note that personal data may be shared between INTO and the university partner where applicable, as necessary in order to provide and administer the course. Any personal data shared is in accordance with the Data Protection Act 1998 and with any other applicable data protection legislation. Students acknowledge and agree that by providing their personal details, INTO may also pass their personal data to external agencies or other selected third parties for the purposes of seeking participation in student surveys, undertaking academic audits or ensuring compliance with INTO's regulatory responsibilities.

28. Liability

- a. Subject to the following, INTO (including its staff and/or representatives) shall have no liability to the Student for any loss, damage, costs or expenses arising under or in connection with these Terms and Conditions except where such loss or damage is directly caused by INTO (or its staff or representatives).
- b. Where such loss or damage is directly caused by INTO (or its staff or representatives), INTO's liability shall, subject to the following, be limited to 150% of all fees paid or payable by the Student to INTO.
- c. Nothing in these Terms and Conditions shall exclude or restrict INTO's liability for death or personal injury resulting from its negligence or fraudulent misrepresentation or in any other circumstances where liability may not be so limited under any applicable law.
- d. INTO shall have no liability for failure or delay to supply the Course and/or any service contemplated by these Terms and Conditions due to circumstances beyond its reasonable control.

29. Disclaimer

- a. This brochure is prepared in advance of the academic year to which it relates. The information is correct at the time of going to press and the Courses and services described herein are those which INTO is planning to offer. However, INTO reserves the right, to amend, add or remove any, Course and/or services set out in this brochure and/or the timetable, delivery, content syllabus and assessment of such Courses. The University (where applicable) also reserves the right to amend the regulations governing these Courses without prior notice. INTO therefore strongly recommends that immediately prior to making any application to INTO or accepting any offer from INTO, Students should refer to the most up-to-date version of the Course descriptions and specifications and the regulations on the INTO website.
- b. INTO also reserves the right to make variations to the contents and methods of delivery of the Courses and services, to discontinue, Courses and services, and to combine and merge Courses, if such action is reasonably considered to be necessary by INTO.
- c. Applicants to INTO Courses will be notified as soon as practicable of any material changes likely to have a bearing on their application, such as cancellation of, or major modification to Courses offered, changes to accommodation provision or fees and charges to be levied by the university partner where applicable.
- d. INTO, in marketing its Courses, aims to comply with the British Code of Advertising Practice issued by the Advertising Standards Authority, e. Applications to universities for undergraduate or postgraduate courses are governed solely by the applicable terms and conditions of that university, and not by these Terms and Conditions.

30. Equal opportunities

- a. INTO operates an equal opportunities admissions policy. It aims to ensure that no applicant will receive less favourable treatment on the grounds of age, sex, marital status, race, colour, nationality, ethnic origin, sexual orientation, or political or religious belief.
- b. INTO welcomes applications from candidates with disabilities.

31. Entire agreement

- a. These Terms and Conditions and the Offer Letter constitute the entire agreement between INTO and the Student for the provision of English language Courses and/or academic Courses and any other INTO Course.
- b. These Terms and Conditions supersede any promises, representations, warranties – whether written or oral – made by or on behalf of one party to the other.

32. Changes to these Terms and Conditions

- a. INTO reserves the right to vary these Terms and Conditions without the consent of the Student at any time prior to entering into a contract with the Student. In such circumstances, INTO will provide a revised set of Terms and Conditions.

33. Transfer of these Terms and Conditions

- a. INTO may assign, transfer, or sub-contract in whole or in part some or all of the benefit and/or burden of these Terms and Conditions.

34. Severance

- a. If any court or competent authority finds that any provision of these Terms and Conditions (or part of any provision) are invalid, illegal or unenforceable, that provision or part-provision shall, to the extent required, be deemed to be deleted, and the validity and enforceability of the other provisions of these Terms and Conditions shall not be affected.

35. Governing law and jurisdiction

- a. The formation, existence, construction, performance, validity and any dispute (including non-contractual disputes) arising out of or in connection with the subject matter or formation of these Terms and Conditions shall be governed by and construed in accordance with English law.
- b. The English Courts will have exclusive jurisdiction to settle any disputes (including any non-contractual disputes), which may arise out of or in connection with these Terms and Conditions. Students and INTO agree to submit to the exclusive jurisdiction of the English Courts.

36. Other fees

- a. Textbooks – Textbooks and/or appropriate Course materials will be supplied to Students on enrolment for International Foundation or English for Foundation Courses. Students will be invoiced for the textbooks and/or appropriate Course materials immediately following receipt by INTO of the Student's acceptance of the offer of a place on the Course and such invoice is payable at least six weeks before the start date of the Course. The approximate cost of textbooks and/or appropriate Course materials will be £210 per academic Course (3 term), £280 per academic Course (4 term Extended) and £70 per term for the English Language Preparation for Foundation Students course.
- b. Laboratory fees – Students who are enrolled on science-based academic Courses (i.e. International Foundation in Engineering, Physical Sciences, Mathematics and Computing, or Life Sciences or Pharmacy or Psychology) shall be charged an additional fee of £400 per academic year to cover the use of laboratory facilities. This fee will be invoiced to the Student immediately following receipt by INTO of the Student's acceptance of the offer of a place on the Course and such invoice is payable at least six weeks before the start date of the Course.

37. University placement and progression

- a. Students who pass the INTO Foundation but do not meet the criteria for progression onto further study at The University of Manchester may, at INTO's sole discretion receive a refund of all tuition fees paid if, having complied with INTO staff advice with regard to their university application, they have not been offered a place at a UK university on a course appropriate to their qualification.
- b. Students who successfully complete the INTO Foundation and who meet the individual entry requirements of The University of Manchester for their chosen degree will be permitted to progress onto their course provided they have received a conditional offer and met the terms of that offer and any other University entry requirements.

This information is available in different formats. Please contact the Centre to request a copy.

English language courses accommodation notes

The prices for both residential and homestay accommodation cover tuition periods only. If your course or study plan spans a vacation period, the accommodation must be paid for during the vacation period as well. Homestay accommodation is only available during vacations by special request and is not guaranteed. A supplement may be payable over the two-week Christmas period. If you wish to leave your belongings with the host family during a vacation period, the full weekly amount will be payable. Please see the terms and conditions for information regarding the availability of residential accommodation over the Christmas period for under 18 students.

Uniplan insurance

Uniplan Insurance is a comprehensive insurance policy prepared especially for international students in the UK to cover loss of personal possessions as well as travel, health and medical claims. Full travel, health and medical insurance is mandatory for all INTO Manchester students, and Uniplan Insurance will automatically be added to your course fees unless you show that suitable alternative cover has been provided. INTO is an appointed representative of Endsleigh Insurance Services Ltd which is authorised and regulated by the Financial Conduct Authority. This can be checked on the Financial Services Register by visiting its website at www.fca.org.uk/register

Period of cover	Cost Standard	Cost Premium
Up to 1 month	£66.40	£73.04
Up to 6 weeks	£77.51	£85.26

Personal liability	£1,000,000	£1,000,000
Overseas legal expenses and assistance	£10,000	£10,000
Course fees	Up to £14,000	Up to £14,000
Cancellation or curtailment charges	£3,000	£3,000
Excess	£50	£50

Principal exclusions

General

The first £50 of each and every claim per incident made by each insured person except for claims under personal liability, personal accident and legal expenses where no excess applies. This policy is not available to anyone aged 65 or over.

Cancellation or curtailment charges and course fees

Any circumstances known prior to booking the trip that could reasonably be expected to give rise to a claim.

Emergency medical and other expenses

Treatment or surgery which in the opinion of the medical practitioner in attendance can wait until your return home. Medication, which prior to departure is known to be required.

Baggage and personal money, passport and documents

Valuables left unattended at any time unless in a safety deposit box or in your locked accommodation. Personal money or your passport if left unattended at any time unless in a safe, a safety deposit box or in your locked accommodation.
